

**National Core Indicators**  
**Aging and Disabilities Adult Consumer Survey**

---

**2019-2020 Nebraska Results**

## Preface

The State of Nebraska has many publicly funded long-term services and supports (LTSS) available to older adults and members with physical disabilities who have significant health care needs. LTSS offer a wide array of health and social supports that enable these individuals to avoid placement in facilities and to live in a setting of their choice. The Department of Health and Human Services (DHHS), Division of Medicaid and Long-Term Care (MLTC) administers Medicaid funding for LTSS that provides a variety of program options in facility or in home and community-based services (HCBS) settings.

To best meet the needs of those served by these programs, it is critical to understand the quality and effectiveness of services to be sure they result in positive outcomes for recipients of LTSS. In order to measure the quality and impact of these services on the people served, the National Association of States United for Aging and Disabilities (NASUAD) and Human Services Research Institute (HSRI) developed the National Core Indicators for Aging and Disabilities (NCI-AD) Adult Consumer Survey. This survey collects valid and reliable person-reported data about the impact that states' publicly funded LTSS have on the quality of life and outcomes of older adults and adults with physical disabilities served by the states.

For HCBS programs, it is critical to measure not only how the programs are working but the impact that they have on consumers' lives. Assessing the impact that HCBS services have on consumers' quality of life is a national best practice. In 2016, Nebraska embarked upon an initiative to redesign its service delivery system. This initiative resulted in a Long-Term Care Redesign plan. The plan identified a need to align DHHS functions for maximum performance. Beginning in 2016, the Division of Developmental Disabilities (DDD) began implementing a sister survey for adults with intellectual and developmental disabilities (I/DD), the National Core Indicators (NCI) Adult Consumer Survey, in its I/DD waivers. In 2017, MLTC followed suit with the NCI-AD Adult Consumer Survey in its Aged and Disabled and Traumatic Brain Injury Waivers, Personal Assistance Services, and Nursing Facility services.

This report highlights results for Nebraska from the 2019-20 NCI-AD Adult Consumer Survey.

## List of Abbreviations Used in This Report

AAA – Area Agency on Aging  
A&D – Aged and Disabled Waiver  
ADRC – Aging and Disability Resource Center  
BI Section – Background Information Section of NCI-AD Adult Consumer Survey  
CIL – Center for Independent Living  
CPAP – continuous positive airway pressure  
DHHS – Department of Health and Human Services  
HCBS – Home and Community-Based Services  
HSRI – Human Services Research Institute  
LTSS – Long-Term Services and Supports  
MFP – Money Follows the Person  
MLTC – Medicaid and Long-Term Care  
MMI – Munroe-Meyer Institute  
N – Number of respondents  
N/A – not applicable  
NASUAD – National Association of States United for Aging and Disabilities  
NCI-AD – National Core Indicators for Aging and Disabilities  
OAA – Older Americans Act  
PACE – Program of All-Inclusive Care for the Elderly  
PAS – Personal Assistance Services  
PCA – Personal Care Assistant  
PCP – Person-Centered Planning  
PERS – Personal Emergency Response System  
UCEDD – University Center for Excellence in Developmental Disabilities

## Table of Contents

Preface .....	1
List of Abbreviations Used in This Report.....	3
Table of Contents.....	4
<b>What is NCI-AD?</b> .....	26
NCI-AD Adult Consumer Survey .....	26
Survey Overview .....	26
Figure 1. 2019-2020 NCI-AD Domains and Indicators.....	27
Survey Organization .....	30
<b>NCI-AD in Nebraska</b> .....	32
Sample .....	32
Figure 2. Number of survey-eligible service recipients, number of analyzed surveys, and calculations of margins of error by program. ....	34
Survey Process in Nebraska.....	34
Stakeholders .....	35
<b>Organization of Results</b> .....	35

Limitations of Report.....	37
<b>Results .....</b>	<b>38</b>
Community Participation .....	38
Graph 1. Percentage of people who are as active in their community as they would like to be .....	39
Graph 2. Percentage of people who are able to do things they enjoy outside of home as much as they want to .....	39
Choice and Control.....	40
Graph 3. Percentage of people who are able to choose their roommate (if in group setting and have roommates) .....	41
Graph 4. Percentage of people who get up and go to bed when they want to.....	41
Graph 5. Percentage of people who can eat their meals when they want to.....	42
Graph 6. Percentage of people who are able to furnish and decorate their room however they want to (if in group setting) .....	42
Graph 7. Percentage of people who never feel in control of their lives .....	43
Relationships.....	44
Graph 8. Percentage of people who are always able to see or talk to friends and family when they want to (if there are friends and family who do not live with person) .....	45
Satisfaction.....	46
Graph 9. Percentage of people who like where they live.....	47

Graph 10. Percentage of people who want to live somewhere else .....	47
Graph 11. Percentage of people who like how they spend their time during the day .....	48
Graph 12. Percentage of people whose paid support staff change too often .....	48
Graph 13. Percentage of people whose paid support staff do things the way they want them done.....	49
Graph 14. Percentage of people whose case manager changes too often.....	49
Graph 15. Percentage of people whose services help them live a better life.....	50
Service Coordination .....	51
Graph 16. Percentage of people who know whom to contact if they want to make changes to their services .....	52
Graph 17. Percentage of people who know whom to contact if they have a complaint about their services.....	52
Graph 18. Percentage of people whose paid support staff show up and leave when they are supposed to .....	53
Graph 19. Percentage of people who have an emergency plan in place .....	53
Graph 20. Percentage of people whose long-term services meet all their current needs and goals.....	54
Graph 21. Percentage of people whose case manager/care coordinator talked to them about services and resources that might help with their unmet needs and goals (if have unmet needs and goals and know they have case manager/care coordinator) ..	54
Graph 22. Percentage of people who have a backup plan if their paid support staff do not show up .....	55

Graph 23. Percentage of people who can reach their case manager/care coordinator when they need to (if know they have case manager/care coordinator).....55

Care Coordination .....56

Graph 24. Percentage of people who felt comfortable and supported enough to go home (or where they live) after being discharged from a hospital or rehabilitation facility in the past year .....57

Graph 25. Percentage of people who had someone follow up with them after being discharged from a hospital or rehabilitation facility in the past year .....57

Graph 26. Percentage of people who know how to manage their chronic condition(s) .....58

Graph 27. Percentage of people with concerns about falling or being unstable who had somebody talk to them or work with them to reduce the risk.....58

Access to Community.....59

Graph 28. Percentage of people who have transportation when they want to do things outside of their home (non-medical) ...60

Graph 29. Percentage of people who have transportation to get to medical appointments when they need to .....60

Access to Needed Equipment .....61

Graph 30. Percentage of people who need grab bars in the bathroom or elsewhere in their home but do not have them.....62

Graph 31. Percentage of people who have grab bars in the bathroom or elsewhere in their home but need a replacement .....62

Graph 32. Percentage of people who need bathroom modifications (other than grab bars) but do not have them.....63

Graph 33. Percentage of people who have bathroom modifications (other than grab bars) but need a replacement.....	63
Graph 34. Percentage of people who need a specialized bed but do not have it.....	64
Graph 35. Percentage of people who have a specialized bed but need a replacement .....	64
Graph 36. Percentage of people who need a ramp or stair lift in or outside the home but do not have it.....	65
Graph 37. Percentage of people who have a ramp or stair lift in or outside the home but need a replacement .....	65
Graph 38. Percentage of people who need some other home modification but do not have it .....	66
Graph 39. Percentage of people who have some other home modification but need a replacement.....	66
Graph 40. Percentage of people who need a walker but do not have it .....	67
Graph 41. Percentage of people who have a walker but need a replacement.....	67
Graph 42. Percentage of people who need a scooter but do not have it.....	68
Graph 43. Percentage of people who have a scooter but need a replacement .....	68
Graph 44. Percentage of people who need a wheelchair but do not have it .....	69
Graph 45. Percentage of people who have a wheelchair but need a replacement.....	69
Graph 46. Percentage of people who need hearing aids but do not have them .....	70
Graph 47. Percentage of people who have hearing aids but need a replacement.....	70

Graph 48. Percentage of people who need glasses but do not have them .....	71
Graph 49. Percentage of people who have glasses but need a replacement .....	71
Graph 50. Percentage of people who need a shower chair but do not have it .....	72
Graph 51. Percentage of people who have a shower chair but need a replacement.....	72
Graph 52. Percentage of people who need a personal emergency response system but do not have it.....	73
Graph 53. Percentage of people who have a personal emergency response system but need a replacement .....	73
Graph 54. Percentage of people who need an oxygen machine but do not have it.....	74
Graph 55. Percentage of people who have an oxygen machine but need a replacement .....	74
Graph 56. Percentage of people who need some other assistive device but do not have it.....	75
Graph 57. Percentage of people who have some other assistive device but need a replacement .....	75
Safety .....	76
Graph 58. Percentage of people who feel safe around their paid support staff .....	77
Graph 59. Percentage of people who are ever worried for the security of their personal belongings.....	77
Graph 60. Percentage of people whose money was taken or used without their permission in the last 12 months.....	78
Graph 61. Percentage of people who are able to get to safety quickly in case of an emergency like a house fire.....	78

Graph 62. Percentage of people who know whom to talk to if they are mistreated or neglected.....	79
Graph 63. Percentage of people with concerns about falling or being unstable.....	79
Health Care .....	80
Graph 64. Percentage of people who have gone to the emergency room for any reason in the past year .....	81
Graph 65. Percentage of people whose emergency room visit in the past year was due to falling or losing balance.....	81
Graph 66. Percentage of people whose emergency room visit in the past year was due to tooth or mouth pain.....	82
Graph 67. Percentage of people whose emergency room visit in the past year was due to being unable to see their primary care doctor when they needed to.....	82
Graph 68. Percentage of people who can get an appointment to see their primary care doctor when they need to .....	83
Graph 69. Percentage of people feeling sad or depressed who have talked to someone about it in the past 12 months.....	83
Graph 70. Percentage of people who have had a physical exam or wellness visit in the past year.....	84
Graph 71. Percentage of people who have had a hearing exam in the past year .....	84
Graph 72. Percentage of people who have had a vision exam in the past year .....	85
Graph 73. Percentage of people who have had a flu shot in the past year .....	85
Graph 74. Percentage of people who have had a dental visit in the past year.....	86
Wellness.....	87

Graph 75. Percentage of people whose health was described as having gotten better compared to 12 months ago.....	88
Graph 76. Percentage of people who have discussed their forgetting things more often than before with a doctor or a nurse ..	88
Graph 77. Percentage of people who often feel sad or depressed .....	89
Graph 78. Percentage of people who often feel lonely.....	89
Graph 79. Percentage of people whose hearing was described as poor (with hearing aids, if wears any) .....	90
Graph 80. Percentage of people whose vision was described as poor (with glasses or contacts, if wears any).....	90
Graph 81. Percentage of people who have access to healthy foods if they want them .....	91
Medications .....	92
Graph 82. Percentage of people who take medications that help them feel less sad or depressed .....	93
Graph 83. Percentage of people who understand what they take their prescription medications for .....	93
Rights and Respect.....	94
Graph 84. Percentage of people whose paid support staff treat them with respect .....	95
Graph 85. Percentage of people whose permission is asked before others enter their home/room (if in group setting) .....	95
Graph 86. Percentage of people who are able to lock the doors to their room if they want to (if in group setting) .....	96
Graph 87. Percentage of people who have enough privacy where they live (if in group setting) .....	96

Graph 88. Percentage of people whose visitors are able to come at any time (if in group setting) .....97

Graph 89. Percentage of people who have access to food at all times of the day (if in group setting) .....97

Graph 90. Percentage of people who have access to information about services in their preferred language (if non-English).....98

Self-Direction .....99

Graph 91. Percentage of people who can make decisions about what kind of services they get .....100

Graph 92. Percentage of people who can make decisions about when they get their services .....100

Graph 93. Percentage of people who can make decisions about their paid support staff .....101

Work .....102

Graph 94. Percentage of people who have a paying job .....103

Graph 95. Percentage of people who would like a job (if not currently employed) .....103

Graph 96. Percentage of people wanting a job who had someone talk to them about job options .....104

Graph 97. Percentage of people who do volunteer work .....104

Graph 98. Percentage of people who would like to do volunteer work (if not currently volunteering) .....105

Everyday Living.....106

Graph 99. Percentage of people needing at least some assistance with everyday activities who always get enough of that assistance when they need it .....107

Graph 100. Percentage of people needing at least some assistance with self-care who always get enough of that assistance when they need it .....	107
Affordability .....	108
Graph 101. Percentage of people who ever have to skip a meal due to financial worries.....	109
<b>Appendix A: Rules for Recoding and Collapsing Responses .....</b>	<b>110</b>
Table A1. Outcome Variables – Collapsing Rules.....	110
<b>Appendix B: Un-Collapsed and Unweighted Data by Program.....</b>	<b>115</b>
Demographic Characteristics .....	116
Table 1. Average age (reported for those under 90 years of age) .....	116
Table 2. Age: 90 years and over.....	116
Table 3. Gender .....	116
Table 4. Race and ethnicity .....	117
Table 5. Marital status.....	117

Table 89. Percentage of people who have had a hearing exam in the past year.....	150
Table 90. Percentage of people who have had a vision exam in the past year .....	150
Table 91. Percentage of people who have had a flu shot in the past year .....	151
Table 92. Percentage of people who have had a dental visit in the past year.....	151
Wellness.....	152

Table 93. Percentage of people whose health was described as poor, fair, good, very good, and excellent .....	152
Table 94. Percentage of people whose health was described as having gotten better, staying about the same, or getting worse compared to 12 months ago .....	152
Table 95. Percentage of people reported to be forgetting things more often than before in the past 12 months .....	152
Table 96. Percentage of people who have discussed their forgetting things with a doctor or a nurse .....	153
Table 97. Percentage of people who feel sad or depressed .....	153
Table 98. Percentage of people who feel lonely .....	153
Table 99. Percentage of people whose hearing was described as poor, fair and good (with hearing aids, if wears any).....	154
Table 100. Percentage of people whose vision was described as poor, fair, and good (with glasses or contacts, if wears any) ..	154
Table 101. Percentage of people who have access to healthy foods if they want them .....	154
Medications .....	155
Table 102. Percentage of people who take medications that help them feel less sad or depressed .....	155
Table 103. Percentage of people who understand what they take their prescription medications for (if takes prescription medications) .....	155
Rights and Respect .....	156
Table 104. Percentage of people whose paid support staff treat them with respect.....	156

Table 105. Percentage of people whose permission is asked before others enter their home/room (if in group setting) .....	156
Table 106. Percentage of people who are able to lock the doors to their room if they want to (if in group setting).....	156
Table 107. Percentage of people who have enough privacy where they live (if in group setting) .....	157
Table 108. Percentage of people whose visitors are able to come at any time (if in group setting) .....	157
Table 109. Percentage of people who have access to food at all times of the day (if in group setting) .....	157
Table 110. Percentage of people who receive information about their services in the language they prefer (if non-English) ....	158
Self-Direction .....	159
Table 111. Percentage of people who can make decisions about what kind of services they get.....	159
Table 112. Percentage of people who can make decisions about when they get their services .....	159
Table 113. Percentage of people who can make decisions about their paid support staff .....	159
Work .....	160
Table 114. Percentage of people who have a paying job .....	160
Table 115. Percentage of people who would like a job (if not currently employed) .....	160
Table 116. Percentage of people wanting a job who had someone talk to them about job options .....	160
Table 117. Percentage of people who do volunteer work.....	161

Table 118. Percentage of people who would like to do volunteer work (if not currently volunteering) ..... 161

Everyday Living..... 162

Table 119. Percentage of people who generally need none, some, or a lot of assistance with everyday activities (such as preparing meals, housework, shopping or taking their medications) ..... 162

Table 120. Percentage of people needing at least some assistance with everyday activities who always get enough of that assistance when they need it ..... 162

Table 121. Percentage of people who generally need none, some, or a lot of assistance with self-care (such as bathing, dressing, going to the bathroom, eating, or moving around their home) ..... 162

Table 122. Percentage of people needing at least some assistance with self-care who always get enough of that assistance when they need it ..... 163

Affordability ..... 164

Table 123. Percentage of people who ever have to skip a meal due to financial worries ..... 164

Ranking of Priorities ..... 165

Table 124. Ranking of how important health is to people (out of health, safety, being independent, and being engaged with community and friends) ..... 165

Table 125. Ranking of how important safety is to people (out of health, safety, being independent, and being engaged with community and friends) ..... 165

Table 126. Ranking of how important being independent is to people (out of health, safety, being independent, and being engaged with community and friends)..... 165

Table 127. Ranking of how important being engaged with their community and friends is to people (out of health, safety, being independent, and being engaged with community and friends)..... 166

**Appendix C: Nebraska’s State-Specific Questions ..... 167**

Table 126. Percentage of people who were informed if any of the following options may be available to them before moving to their current location (if in Aged and Disabled Waiver or Nursing Facility) (NE-1)..... 168

Table 127. Percentage of people who had someone help them navigate through these options (if in Aged and Disabled Waiver) (NE-2) ..... 168

Table 128. Percentage of people receiving meals as part of their services who have enough menu choices for those meals (if in Aged and Disabled Waiver) (NE- 3) ..... 168

Table 129. Percentage of people who reported there is someone who can help them get answers if they ever need assistance with questions about their services/care (NE- 4) ..... 169

Table 130. Percentage of people who reported there are quiet areas where residents can visit with friends and family privately (if in Nursing Facility) (NE-5)..... 169

## What is NCI-AD?

The National Core Indicators for Aging and Disabilities© (NCI-AD) are standard measures used across participating states to assess the quality of life and outcomes of seniors and adults with physical disabilities—including traumatic or acquired brain injury—who are accessing publicly-funded services through the Older Americans Act (OAA), Program of All-Inclusive Care for the Elderly (PACE), Medicaid, and/or state-funded programs. The program is coordinated by ADvancing States<sup>1</sup> (formerly the National Association of States United for Aging and Disabilities (NASUAD)) and Human Services Research Institute (HSRI). NCI-AD data are gathered through yearly in-person Adult Consumer Surveys administered by state Aging, Disability, and Medicaid Agencies (or an Agency-contracted vendor) to a sample of at least 400 individuals in each participating state. NCI-AD data measure the performance of states' long-term services and supports (LTSS) systems and service recipient outcomes, helping states prioritize quality improvement initiatives, engage in thoughtful decision making, and conduct futures planning with valid and reliable LTSS data. The program officially launched in the summer of 2015 with 13 participating states<sup>2</sup>. The 2019-2020 project cycle marked its fifth year of implementation, with more than twenty states having participated. For more on the development and history of NCI-AD, refer to the [\*National Core Indicators Aging and Disability Adult Consumer Survey: 2015-2016 National Results\*](#) report, available on the NCI-AD website ([www.NCI-AD.org](http://www.NCI-AD.org)).

## NCI-AD Adult Consumer Survey

### Survey Overview

The NCI-AD Adult Consumer Survey is designed to measure outcomes across nineteen broad domains comprising approximately 75 core indicators. Indicators are the standard measures used across states to assess the outcomes of services provided to individuals,

---

<sup>1</sup> ADvancing States (formerly NASUAD) is the membership organization for state Aging, Disability, and Medicaid directors. [www.ADvancingStates.org](http://www.ADvancingStates.org)

<sup>2</sup> Colorado, Delaware, Georgia, Indiana, Kansas, Maine, Minnesota, Mississippi, New Jersey, North Carolina, Ohio, Tennessee, and Texas.

including respect and rights, service coordination, care coordination, employment, health, safety, person-centered planning, etc. An example of an indicator in the Service Coordination domain is: “Percentage of people whose services meet their needs and goals”.

While most indicators correspond to a single survey question, a few refer to clusters of related questions. For example, the indicator “Percentage of people who have needed home modifications” in the Access to Needed Equipment domain is addressed by several survey questions that ask about the person’s need for various types of home modifications. Figure 1 below details NCI-AD domains and corresponding indicators.

Figure 1. 2019-2020 NCI-AD Domains and Indicators

Domain	NCI-AD Indicator
<b>Community Participation</b>	Percentage of people who are able to do things they enjoy outside of home as much as they want to
	Percentage of people who are as active in their community as they would like to be
<b>Choice and Control</b>	Percentage of people in group settings who are able to furnish and decorate their room however they want to
	Percentage of people in group settings who are able to choose their roommate
	Percentage of people who feel in control of their life
	Percentage of people who are able to get up and go to bed when they want to
	Percentage of people who are able to eat their meals when they want to
<b>Relationships</b>	Percentage of people who are able to see or talk to their friends and family when they want
<b>Satisfaction</b>	Percentage of people who like where they live
	Percentage of people who want to live somewhere else
	Percentage of people whose case manager changes too often
	Percentage of people whose paid support staff change too often
	Percentage of people whose paid support staff do things the way they want them done
	Percentage of people who like how they spend their time during the day
	Percentage of people whose services help them live a better life
	Percentage of people who can reach their case manager when they need to

Domain	NCI-AD Indicator
<b>Service Coordination</b>	Percentage of people who know whom to contact if they have a complaint about their services
	Percentage of people who know whom to contact if they want to make changes to their services
	Percentage of people whose paid support staff come and leave when they are supposed to
	Percentage of people who have a backup plan if their paid support staff don't show up
	Percentage of people who have an emergency plan in place
	Percentage of people whose services meet their needs and goals
	Percentage of people whose case manager talked to them about services that might help with their unmet needs
<b>Care Coordination</b>	Percentage of people with concerns about falling who had someone work with them to reduce risk of falls
	Percentage of people who felt comfortable going home after being discharged from a hospital or rehab/nursing facility
	Percentage of people who had adequate follow-up after being discharged from a hospital or rehab/nursing facility
	Percentage of people who know how to manage their chronic conditions
<b>Access to Community</b>	Percentage of people who have adequate transportation to get to medical appointments
	Percentage of people who have adequate transportation to do the things they want outside of home
<b>Access to Needed</b>	Percentage of people who have needed home modifications
	Percentage of people who have needed assistive equipment and devices
<b>Safety</b>	Percentage of people with concerns about falling
	Percentage of people who feel safe around their support staff
	Percentage of people who are able to get to safety quickly in case of an emergency
	Percentage of people who know whom to talk to if they are mistreated or neglected
	Percentage of people who are worried for the security of their personal belongings
	Percentage of people whose money has been taken without their permission
<b>Health Care</b>	Percentage of people who have talked to someone about feeling sad or depressed
	Percentage of people who can get an appointment to see their primary care doctor when they need to
	Percentage of people who experience potentially preventable emergency room visits
	Percentage of people who have preventive health screenings and exams in a timely manner

Domain	NCI-AD Indicator
<b>Wellness</b>	Percentage of people who have access to healthy foods
	Percentage of people whose health is better than 12 months ago
	Percentage of people with uncorrected poor hearing
	Percentage of people with uncorrected poor vision
	Percentage of people who have discussed forgetting things with a health care professional
	Percentage of people who often feel lonely
	Percentage of people who often feel sad or depressed
<b>Medications</b>	Percentage of people who know what their prescription medications are for
	Percentage of people who take medications to help them feel less sad or depressed
<b>Rights and Respect</b>	Percentage of people who have access to information about services in their preferred language
	Percentage of people whose paid support staff treat them with respect
	Percentage of people in group settings whose permission is asked before others enter their room
	Percentage of people in group settings who are able to lock the door to their room
	Percentage of people in group settings who have enough privacy
	Percentage of people in group settings whose visitors are able to come at any time
	Percentage of people in group settings who always have access to food
<b>Self-Direction</b>	Percentage of people who can choose what services they receive
	Percentage of people who can choose when they receive services
	Percentage of people who can choose their paid support staff
<b>Work</b>	Percentage of people who have a paid job
	Percentage of people who would like a job
	Percentage of people wanting a job who receive job search assistance
	Percentage of people who volunteer
	Percentage of people who would like to volunteer

Domain	NCI-AD Indicator
Everyday Living	Percentage of people who have adequate support for everyday activities
	Percentage of people who have adequate support for self-care
Affordability	Percentage of people who have to cut back on food due to finances
Person-Centered Planning (OPTIONAL MODULE)	Percentage of people who remember their last service planning meeting
	Percentage of people who are involved in making decisions about their service plan
	Percentage of people whose service planning meeting took place at a convenient time
	Percentage of people whose service planning meeting took place in a convenient location
	Percentage of people whose service planning meeting included the people they wanted to be there
	Percentage of people who discussed their preferences and needs in the service planning meeting
	Percentage of people who received a copy of their service plan after the service planning meeting
	Percentage of people whose service plan reflects what was discussed in the service plan meeting
	Percentage of people whose service plan includes their preferences and choices

## Survey Organization

The NCI-AD Adult Consumer Survey tool consists of the Pre-Survey form, the Background Information Section, the Full In-Person Survey, and the Interviewer Feedback Form. An alternative Proxy Version of the In-Person Survey is available for those interviews that need to be conducted with proxies of service recipients instead of the service recipient themselves. Each part of the tool is described below.

**Pre-Survey form:** The Pre-Survey section is an optional form intended to collect information that may be helpful for surveyors to prepare for and schedule the survey meetings. The Pre-Survey form is for surveyor use only; Pre-Survey information is not submitted or used for any data analysis or reporting.

**Background Information (BI) Section:** The BI Section collects demographic and service-related information about the service recipient. To the extent possible, data for the BI Section are derived from states' existing administrative records. BI items not

available from state administrative data sources may be collected by surveyors at the end of the survey meeting. Surveyors may collect any missing BI information with the exception of five BI items that must be completed using administrative data sources (person's primary source of LTSS funding/program, LTSS services received through that program, length of receiving services, participation in a self-directed supports option, and legal guardianship status). Each BI item tracks whether data were derived from existing administrative records or collected by surveyors as part of the survey meetings.

**In-Person Survey:** The Full In-Person Survey consists of approximately 90 questions, with related questions grouped together by theme or topic (e.g., a series of questions about employment, a series of questions about support staff, etc.); another 10 questions comprise the optional Person-Centered Planning module. The Full In-Person Survey is completed face-to-face with the person receiving services. The respondent may ask their proxy (e.g. a family member or a close friend) for assistance with answering some of the questions, if needed. The Full In-Person Survey includes both subjective and objective questions; proxy assistance is only allowed for a defined subset of more objective items.

**Proxy Version:** The Proxy Version is an alternative version of the In-Person Survey. It is used in place of the Full In-Person Survey when the person receiving services is unable or unwilling to provide valid responses or has asked their proxy to complete the survey on their behalf. The Proxy Version includes only the subset of more objective questions from the Full Survey that allow for proxy assistance. Questions in the Proxy Version are rephrased to be in third person, making it clear their subject is the person receiving services and not the proxy respondent. Surveyors must meet with the service recipient face-to-face and attempt to interview them; only after the in-person attempt has been made can the proxy be surveyed instead of the service recipient.

**Interviewer Feedback Form:** The Interviewer Feedback Form is completed by surveyors after the survey meeting is concluded. It collects information about the survey meeting itself, such as when/where the meeting took place, who was present, the respondent's level of comprehension, etc. Surveyors are also asked to provide any feedback they may have about the survey tool itself or the survey process overall.

## Impact of COVID-19 on 2019-20 Data Collection and Reporting

Due to the COVID-19 Pandemic the 2019-20 Adult Consumer Survey (ACS) data collection period was unexpectedly abbreviated and all data collection stopped in April. At the time surveying ended, states were in many different stages of survey administration. Very few states had completed data collection. NCI-AD made the decision to offer to provide state reports to all states that collected data during the 2019-20 survey year. As states were in various stages of completion, some demographics – including program populations – may not be fully represented. Therefore, data presented in this report are for internal state use only and data *should not* be used as a true comparison between states this year or in previous years.

## NCI-AD in Nebraska

The Nebraska Department of Health and Human Services (DHHS), Division of Medicaid and Long-Term Care (MLTC), NASUAD, and HSRI implemented the 2019-20 NCI-AD Adult Consumer Survey in Nebraska. MLTC recognized the need for an independent assessment of Nebraska's publicly funded home and community-based services (HCBS), State Plan Personal Assistance Services and Nursing Facility services. Funding from the Money Follows the Person (MFP) grant was secured to participate in the NCI-AD program. Data from the project will be used to support Nebraska's efforts to strengthen LTSS policy, inform quality assurance activities, and improve the quality of life of LTSS consumers. To allow for year-to-year comparison of the data, MLTC will participate in the 2020-21 NCI-AD Adult Consumer Survey for Nebraska.

## Sample

The total number of NCI-AD Adult Consumer Surveys conducted in Nebraska in 2019-2020 and included for analysis was five hundred ninety-three (Total N=593). Four program populations were included in the survey sample and are detailed below.

**Aged and Disabled (A&D) Waiver:** This program provides options related to needed services and community supports to aged persons and adults and children with disabilities. Services include Adult Day Health Services, Chore Services, Respite Services, Assisted Living Service, Assistive Technology Supports and Home Modifications, Extra Care for Children with

Disabilities, Home Again Services, Home Delivered Meals, Independent Skills Building, Nutrition Services, Personal Emergency Response System and Transportation Services. One hundred people (N=100) from this program were interviewed and included for analysis.

**Personal Assistance Services (PAS):** Personal assistance services are provided under the Medicaid state plan to persons with disabilities and chronic conditions of all ages to enable them to accomplish tasks that they would normally do for themselves if they did not have a disability. One hundred sixty-three people (N=163) from this program were interviewed and included for analysis.

**Nursing Facilities (NF):** Nursing Facility services are furnished in a facility to individuals who meet a nursing facility level of care. One hundred sixty-two people (N=162) from this program were interviewed and included for analysis.

**Older Americans Act (OAA):** The OAA was established by Congress in 1965 to provide services to seniors age 60 or older. The OAA program supports a range of home and community-based services, such as meals-on-wheels and other nutrition programs, in-home services, transportation, legal services, elder abuse prevention and caregiver support. These programs help seniors stay as independent as possible in their homes and communities. Individuals must be receiving at least one “Cluster 1 Service,” including adult day care/adult day health, chore, homemaker, personal care services, and/or homedelivered meals 2-3 or more times per week to be eligible for the NCI-AD survey. One hundred sixty-eight people (N=168) from this program were interviewed and included for analysis

Figure 2 below summarizes programs included in Nebraska’s NCI-AD survey sample, the number of survey-eligible service recipients in each and the corresponding number of conducted surveys included for analysis. Also included are calculations of margin of error for each program under two scenarios: assuming a very conservative 0.5 distribution of responses and assuming a somewhat less conservative 0.7 distribution of responses. Using the 0.5 distribution of responses is the most conservative distribution assumption for calculating margins of error that can be made and is usually used when no prior information is available about true population response distributions. When some prior information about distributions of responses in the population is available, it can be used for calculating less conservative margins of error. Based on distributions observed in previously collected NCI-AD data, it is

reasonable to assume a somewhat less conservative population response distribution of 0.7 for calculating margins of error. Calculations in both scenarios use the total number of analyzed surveys in each program. It is important to note that the actual number of valid responses to an individual survey item may be smaller than the total number of analyzed surveys. This is explained in more detail in the “Organization of Results” section below.

Figure 2. Number of survey-eligible service recipients, number of analyzed surveys, and calculations of margins of error by program.

<b>Program</b>	<b>Number of analyzed surveys</b>	<b>Number of eligible participants</b>	<b>Margin of error (MoE) and confidence level (CL), assuming 0.7 distribution</b>	<b>Margin of error (MoE) and confidence level (CL), assuming 0.5 distribution</b>
<b>Aged and Disabled (A&amp;D) Waiver</b>	100	5,300	8.9% MoE, 95% CL	9.7% MoE, 95% CL
<b>Personal Assistance Services</b>	163	1,756	6.7% MoE, 95% CL	7.3% MoE, 95% CL
<b>Nursing Facilities (NF)</b>	162	6,368	7.0% MoE, 95% CL	7.6% MoE, 95% CL
<b>OAA</b>	168	16,419	6.9% MoE, 95% CL	7.5% MoE, 95% CL
<b>Total</b>	<b>593</b>	<b>29,843</b>	<b>3.7% MoE, 95% CL</b>	<b>4.0% MoE, 95% CL</b>

## Survey Process in Nebraska

MLTC contracted with Munroe-Meyer Institute (MMI), the University Center for Excellence in Developmental Disabilities (UCEDD), to hire and manage local interviewers to conduct the in-person NCI-AD Adult Consumer Survey. MMI identified and trained 14 individuals to conduct the survey. DHHS, MMI, NASUAD, and HSRI staff conducted a training with the interviewers prior to survey implementation. The training consisted of a detailed review of the NCI-AD survey tool, general and population-specific surveying techniques, procedures for scheduling interviews and obtaining verbal consent, overview of the NCI-AD project, guidance for follow-

up in cases of unmet needs and/or abuse, neglect or exploitation, mock interviewing practice sessions, and data entry procedures. Interviews began within days after completing the training sessions.

Nebraska used NCI-AD's optional module on person-centered planning (PCP) and also chose to add 11 state-specific questions to the standard NCI-AD Survey.

## Stakeholders

MLTC is committed to providing ongoing NCI-AD stakeholder engagement activities through various public meetings and committees within the Department to include the HCBS Stakeholder Update Meeting, Long-Term Redesign Advisory Committee, and HCBS Quality Improvement Subcommittee. Through ongoing communications with key LTSS-specific stakeholders, the engagement process will continue to grow as alignment among other state initiatives begins to emerge.

## Organization of Results

The following pages of the report presents findings from Nebraska's 2019-2020 NCI-AD Adult Consumer Survey data collection cycle. Results are grouped by domain and are presented in chart format. Charts show results for individual survey items broken out by each program. The number of people (N) in each program that gave valid responses to that survey item are also shown. The number of valid responses to an item may be smaller than the total number of analyzed surveys, for the following reasons:

- Certain questions in the survey can only be asked of the service recipient – i.e. proxy respondents for these questions are not allowed. These questions have a smaller number of responses because they are contained only in the full In-Person Survey, whereas the total number of analyzed surveys also includes cases when the Proxy Version was used.
- Only valid responses are included in both the denominator and the numerator when calculating percentages. Unclear, refused and, for most items, “don't know” responses are excluded.

- The survey contains several skip-logic patterns. This means that depending on the response to a previous survey item, a question may or may not be asked, as appropriate. When an item is skipped due to skip logic, the survey case does not contribute to the calculations for the item.

Please note: Extreme caution should be used when interpreting results where the number of valid responses is small. Each program's valid number of responses (valid Ns) is shown in every chart and table in this report. In addition to displaying valid number of responses, charts also use an asterisk to indicate Ns smaller than 20. Responses smaller than 20 should not be used as a basis for firm conclusions and should be treated as suggestive and informational only.

Each chart also contains Nebraska's weighted state average, as well as the total number of observed valid responses for that survey item. A weighted state average takes into account whether the sampling strategy proportionally oversampled one or more of the state's programs; its calculation effectively "re-balances" the oversampled programs to produce an average one would expect if they were represented proportionally relative to the populations they serve. Nebraska's sampling design did include oversampling of some of its programs – i.e. some programs constituted a larger proportion of the survey sample than they did as proportion of total population of survey-eligible service recipients. To account for these programs being proportionally over-represented in the state's survey data, statistical weights were developed and applied to calculate Nebraska's weighted state averages presented in the charts. For exact calculations of weights, please contact the NCI-AD project team.

Charts present results using binary data indicating presence or absence of the outcome. For the purposes of analysis, most survey items with three or more possible response options were recoded to form binary variables (i.e. responses were collapsed, for example, an "always" response combined with a "most of the time" response). For details about recoded items and the rules on collapsing response options, please refer to Appendix A. Unless otherwise stated, "don't know" and unclear/refused responses were excluded from both the numerator and denominator.

Un-collapsed and unweighted data showing frequencies of all response options by program are shown in tabular format in Appendix B. These tables contain all response options, including "don't know" and unclear/refused/no response categories. Tables also contain Nebraska's unweighted overall sample averages for all response options. Please note that the "sample averages" in tables in

Appendix B are simple (unweighted) averages that didn't employ weights in their calculations and may therefore be slightly different from the corresponding weighted state averages shown in the charts.

Data from state-specific questions that Nebraska chose to add to the standard NCI-AD Survey are shown in Appendix C. Nebraska's data from NCI-AD's optional PCP module are shown in Appendix D.

## Limitations of Report

This report contains survey results related to the quality and outcomes of LTSS in Nebraska. However, it does not provide benchmarks for acceptable or unacceptable levels of performance. Rather, it is up to state staff, leadership, and other stakeholders to assess information contained in this report and establish priorities. This report is intended to be one mechanism to assess the current state of Nebraska's LTSS system and identify areas that are working well and areas that could use improvement. The charts in this report allow the reader to compare average outcomes between Nebraska's programs and the state overall. State leaders, public managers, policymakers and community stakeholders can use this information to decide whether a program's result relative to another program or to the state average suggests further investigation or intervention is necessary. However, discretion should be used when comparing a program's result relative to another program, as it is important to keep in mind the potential differences as well as similarities amongst program participants and the programs themselves.

# Results

## Community Participation

People are able to participate in preferred activities outside of home.

There are two Community Participation indicators measured by the NCI-AD Adult Consumer Survey:

1. Percentage of people who are able to do things they enjoy outside of home as much as they want to
2. Percentage of people who are as active in their community as they would like to be

There are three<sup>3</sup> survey items that correspond to the Community Participation domain.

Un-collapsed data are shown in Appendix B.

---

<sup>3</sup> Data for one item are presented in Appendix B only.

Graph 1. Percentage of people who are as active in their community as they would like to be

Graph 2. Percentage of people who are able to do things they enjoy outside of home as much as they want to

## Choice and Control

People are involved in making decisions about their everyday lives.

There are five Choice and Decision-Making indicators measured by the NCI-AD Adult Consumer Survey:

1. Percentage of people in group settings who are able to furnish and decorate their room however they want to
2. Percentage of people in group settings who are able to choose their roommate
3. Percentage of people who feel in control of their life<sup>4</sup>
4. Percentage of people who are able to get up and go to bed when they want to
5. Percentage of people who are able to eat their meals when they want to

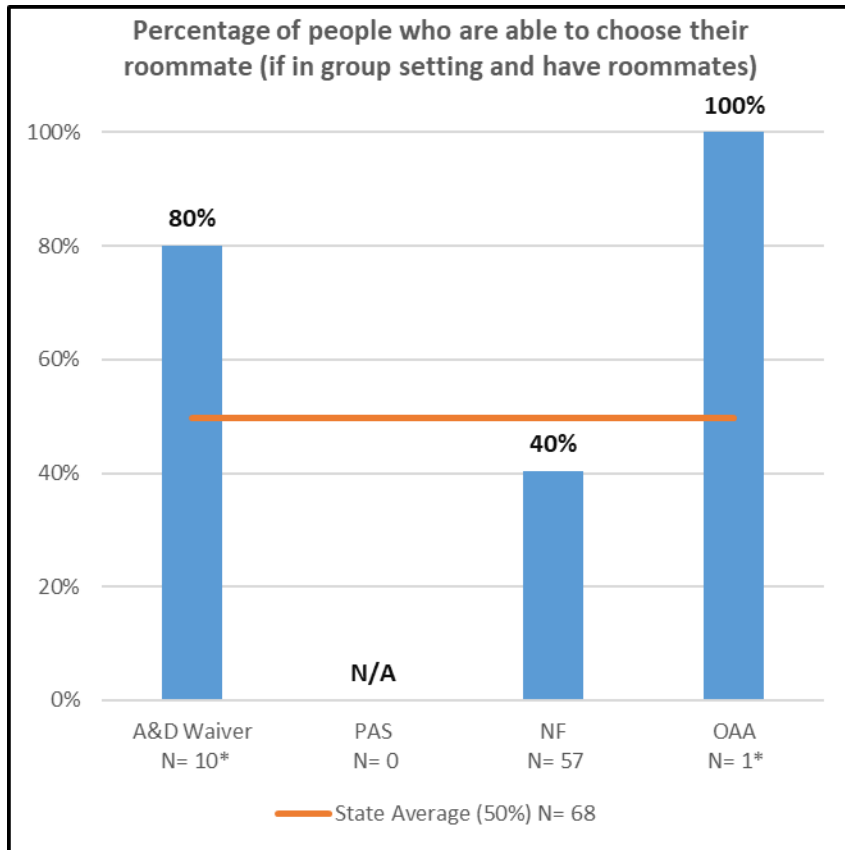

There are five survey items that correspond to the Choice and Decision-Making domain.

Un-collapsed data are shown in Appendix B.

---

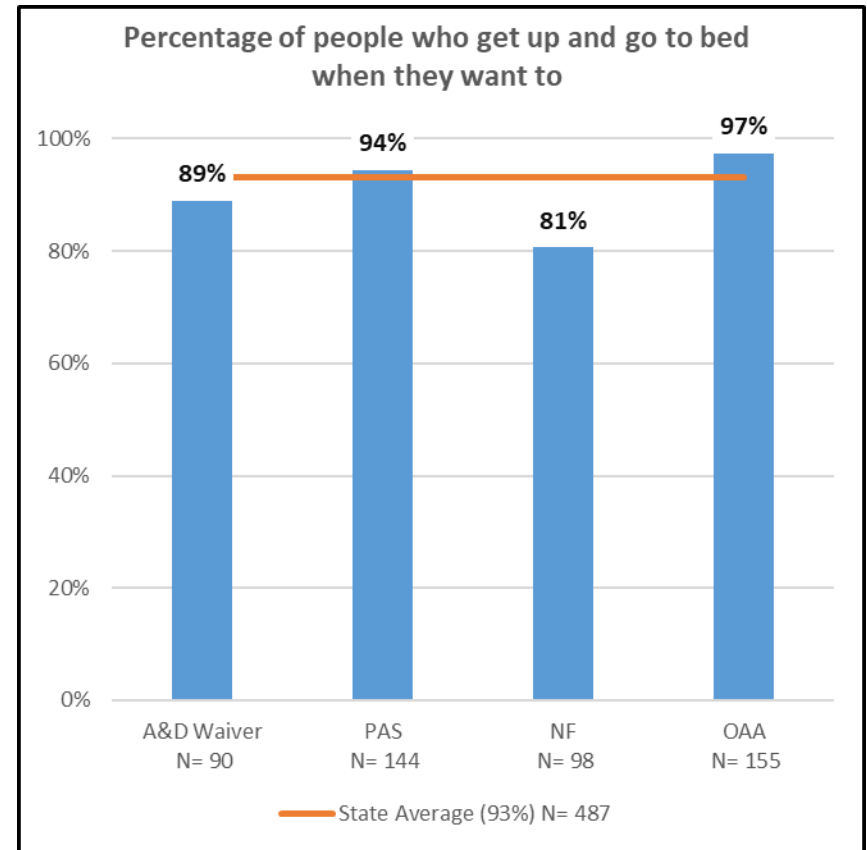

<sup>4</sup> Indicator previously reported in the “Control” domain.

Graph 3. Percentage of people who are able to choose their roommate (if in group setting<sup>5</sup> and have roommates)

\* Very small number of responses

Graph 4. Percentage of people who get up and go to bed when they want to

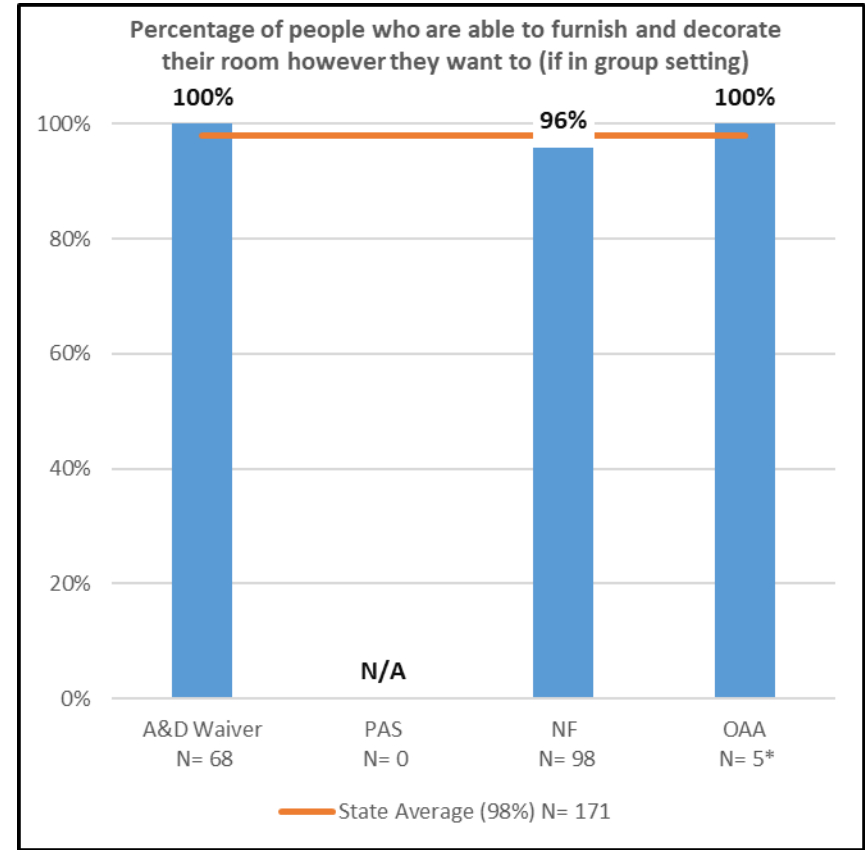

<sup>5</sup> Group/adult family/foster/host home, assisted living/residential care facility, nursing facility/nursing home

Graph 5. Percentage of people who can eat their meals when they want to

Graph 6. Percentage of people who are able to furnish and decorate their room however they want to (if in group setting<sup>6</sup>)

\* Very small number of responses

<sup>6</sup> Group/adult family/foster/host home, assisted living/residential care facility, nursing facility/nursing home

Graph 7. Percentage of people who never feel in control of their lives<sup>7</sup>

<sup>7</sup> Item previously reported in the "Control" domain.

## Relationships

People have friends and relationships.

There is one Relationship indicator measured by the NCI-AD Adult Consumer Survey:

1. Percentage of people who are able to see or talk to their friends and families when they want

There are two<sup>8</sup> survey items that correspond to the Relationship domain.

Un-collapsed data are shown in Appendix B.

---

<sup>8</sup> Data for one item are presented in Appendix B only.

Graph 8. Percentage of people who are always able to see or talk to friends and family when they want to (if there are friends and family who do not live with person)

## Satisfaction

People are satisfied with their everyday lives.

There are seven Satisfaction indicators measured by the NCI-AD Adult Consumer Survey:

1. Percentage of people who like where they live
2. Percentage of people who want to live somewhere else
3. Percentage of people whose case manager changes too often<sup>9</sup>
4. Percentage of people whose paid support staff change too often
5. Percentage of people whose paid support staff do things the way they want them done
6. Percentage of people who like how they spend their time during the day
7. Percentage of people whose services help them live a better life<sup>10</sup>

There are nine<sup>11</sup> survey items that correspond to the Satisfaction domain.

Un-collapsed data are shown in Appendix B.

---

<sup>9</sup> New indicator in 2019-2020.

<sup>10</sup> New indicator in 2019-2020.

<sup>11</sup> Data for two items are presented in Appendix B only.

Graph 9. Percentage of people who like where they live

Graph 10. Percentage of people who want to live somewhere else

Graph 11. Percentage of people who like how they spend their time during the day

Graph 12. Percentage of people whose paid support staff change too often

Graph 13. Percentage of people whose paid support staff do things the way they want them done

Graph 14. Percentage of people whose case manager changes too often<sup>12</sup>

<sup>12</sup> New item in 2019-2020.

Graph 15. Percentage of people whose services help them live a better life<sup>13</sup>

<sup>13</sup> New item in 2019-2020.

## Service Coordination

Service coordinators are accessible and responsive, and the person receives needed services.

There are eight Service Coordination indicators measured by the NCI-AD Adult Consumer Survey:

1. Percentage of people who can reach their case manager when they need to
2. Percentage of people who know whom to contact if they have a complaint about their services
3. Percentage of people who know whom to contact if they want to make changes to their services
4. Percentage of people whose support staff come and leave when they are supposed to
5. Percentage of people who have a backup plan if their paid support staff don't show up
6. Percentage of people who have an emergency plan in place
7. Percentage of people whose services meet their needs and goals
8. Percentage of people whose case manager talked to them about services that might help with their unmet needs

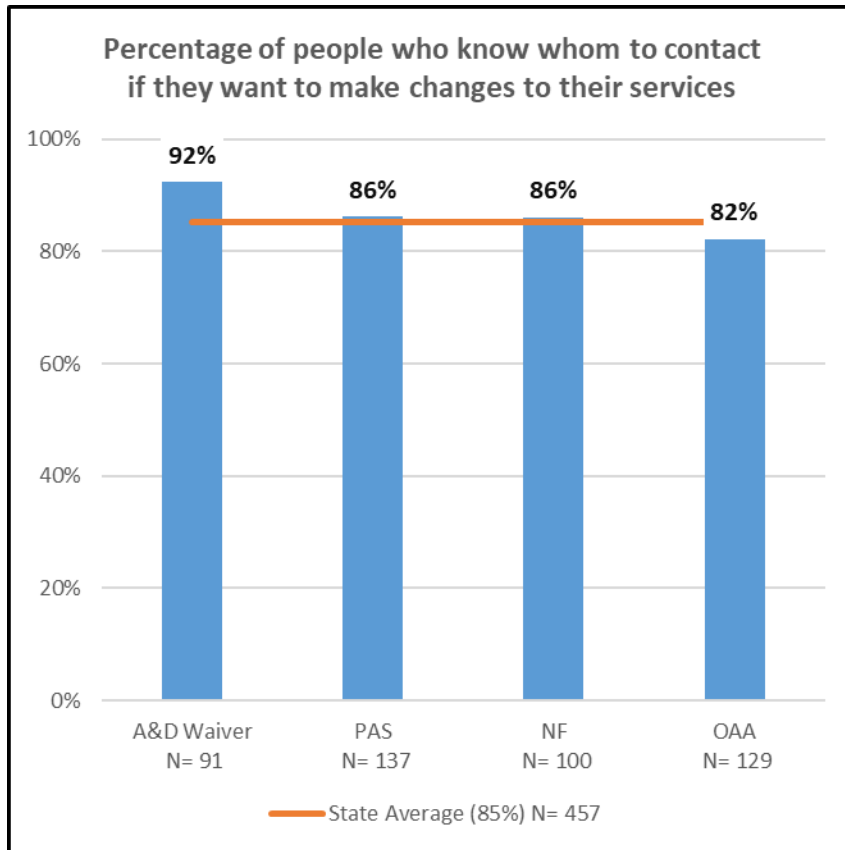

There are fourteen<sup>14</sup> survey items that correspond to the Service Coordination domain.

Un-collapsed data are shown in Appendix B.

---

<sup>14</sup> Data for six items are presented in Appendix B only.

Graph 16. Percentage of people who know whom to contact if they want to make changes to their services

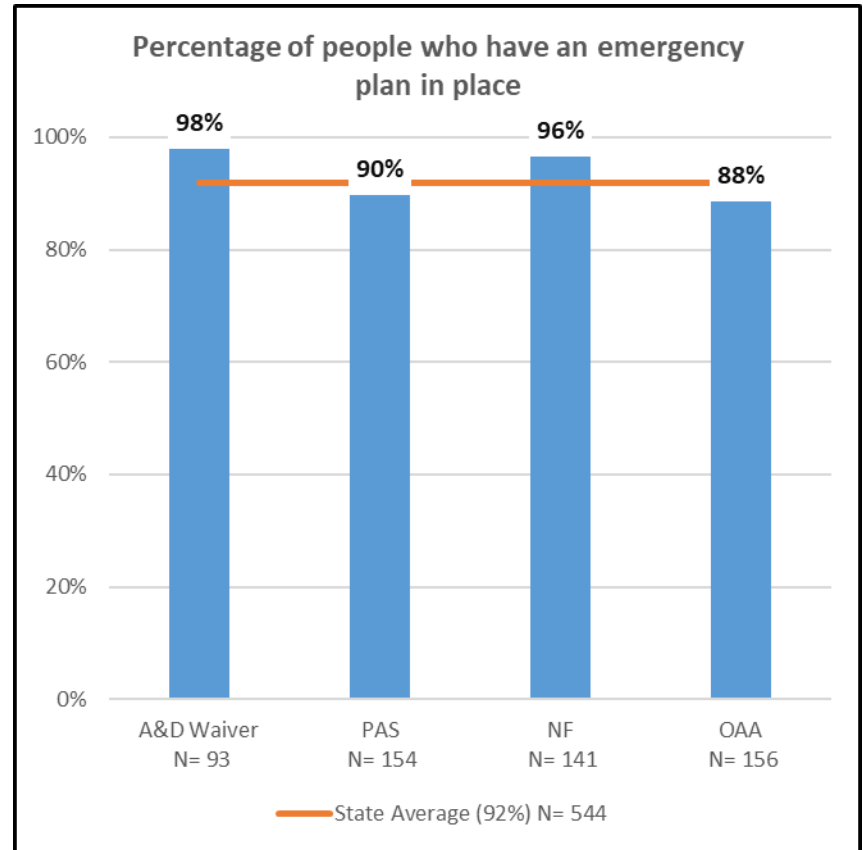

Graph 17. Percentage of people who know whom to contact if they have a complaint about their services

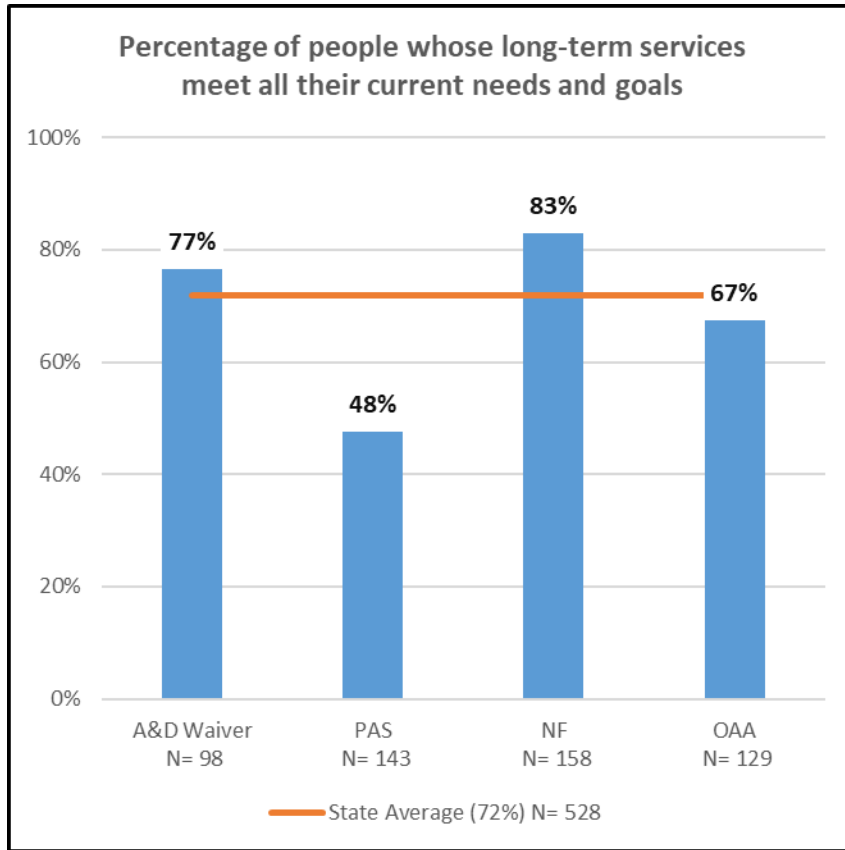

Graph 18. Percentage of people whose paid support staff show up and leave when they are supposed to

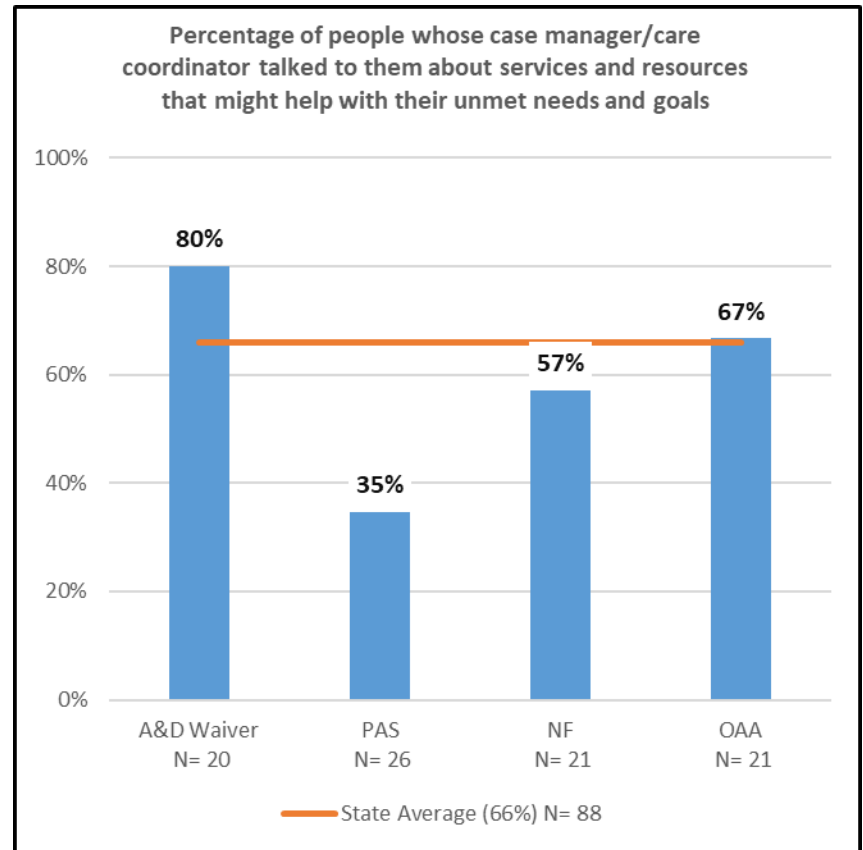

Graph 19. Percentage of people who have an emergency plan in place

Graph 20. Percentage of people whose long-term services meet all their current needs and goals

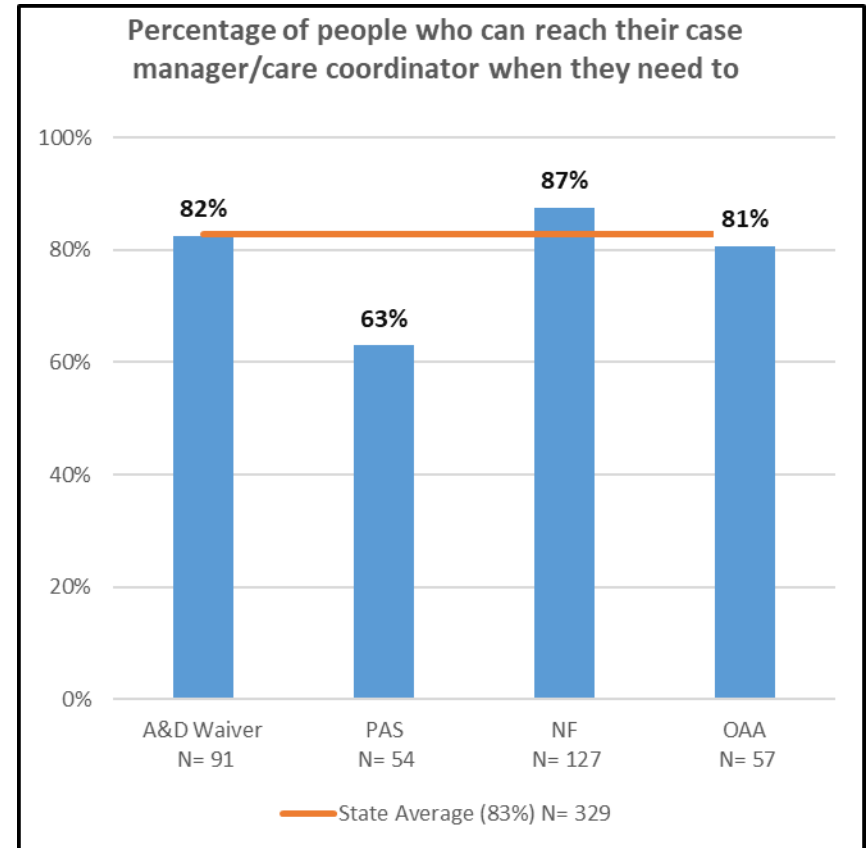

Graph 21. Percentage of people whose case manager/care coordinator talked to them about services and resources that might help with their unmet needs and goals (if have unmet needs and goals and know they have case manager/care coordinator)

Graph 22. Percentage of people who have a backup plan if their paid support staff do not show up

Graph 23. Percentage of people who can reach their case manager/care coordinator when they need to (if know they have case manager/care coordinator)

\* Very small number of responses

## Care Coordination

Individuals are provided appropriate coordination of care.

There are four Care Coordination indicators measured by the NCI-AD Adult Consumer Survey:

1. Percentage of people who feel comfortable going home after being discharged from a hospital or a rehab facility
2. Percentage of people who have adequate follow-up after being discharged from a hospital or a rehab facility
3. Percentage of people who know how to manage their chronic conditions
4. Percentage of people with concerns about falling who had someone work with them to reduce risk of falls

There are five<sup>15</sup> survey items that correspond to the Care Coordination domain.

Un-collapsed data are shown in Appendix B.

---

<sup>15</sup> Data for one item are presented in Appendix B only.

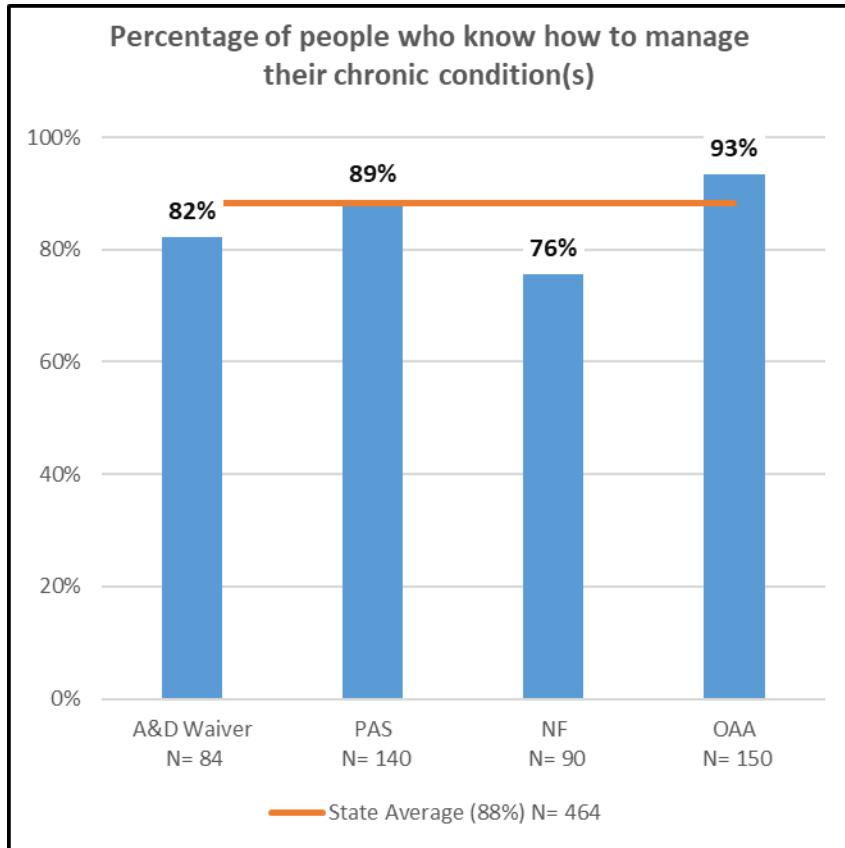

Graph 24. Percentage of people who felt comfortable and supported enough to go home (or where they live) after being discharged from a hospital or rehabilitation facility in the past year

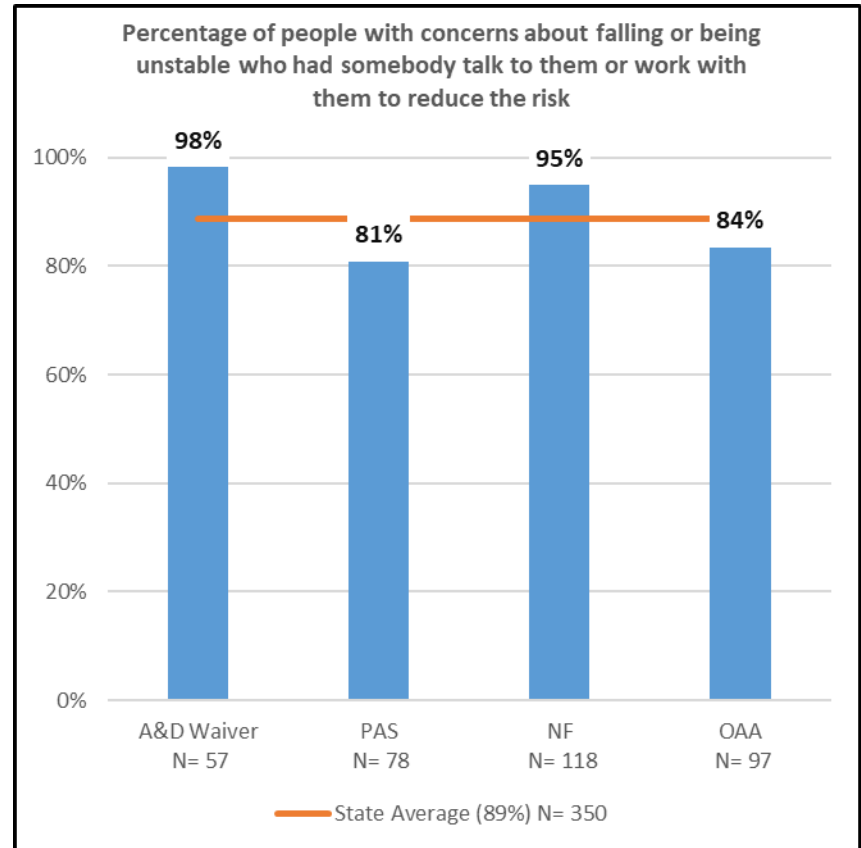

Graph 25. Percentage of people who had someone follow up with them after being discharged from a hospital or rehabilitation facility in the past year

Graph 26. Percentage of people who know how to manage their chronic condition(s)

Graph 27. Percentage of people with concerns about falling or being unstable who had somebody talk to them or work with them to reduce the risk

## Access to Community

Services facilitate individuals' access to community.

There are two Access to Community indicators measured by the NCI-AD Adult Consumer Survey:

1. Percentage of people who have adequate transportation to get to medical appointments
2. Percentage of people who have adequate transportation to do the things they want outside of home

There are two survey items that correspond to the Access to Community domain.

Un-collapsed data are shown in Appendix B.

Graph 28. Percentage of people who have transportation when they want to do things outside of their home (non-medical)

Graph 29. Percentage of people who have transportation to get to medical appointments when they need to

## Access to Needed Equipment

People have access to needed home modifications and assistive equipment.

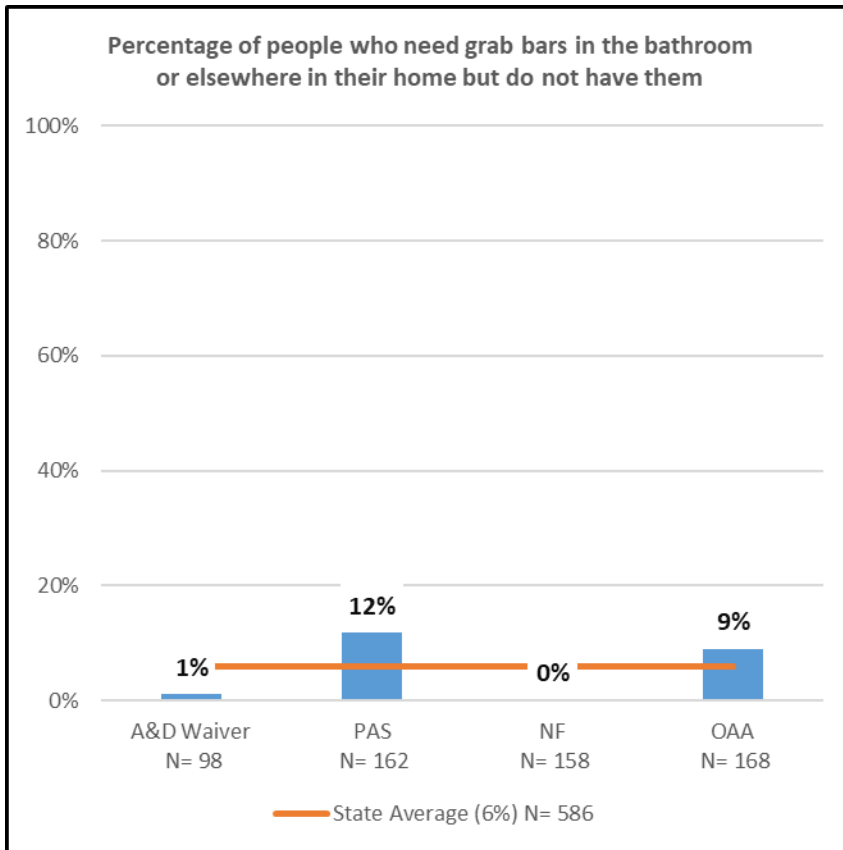

There are two Access to Needed Equipment indicators measured by the NCI-AD Adult Consumer Survey:

1. Percentage of people who have needed home modifications
2. Percentage of people who have needed assistive equipment and devices

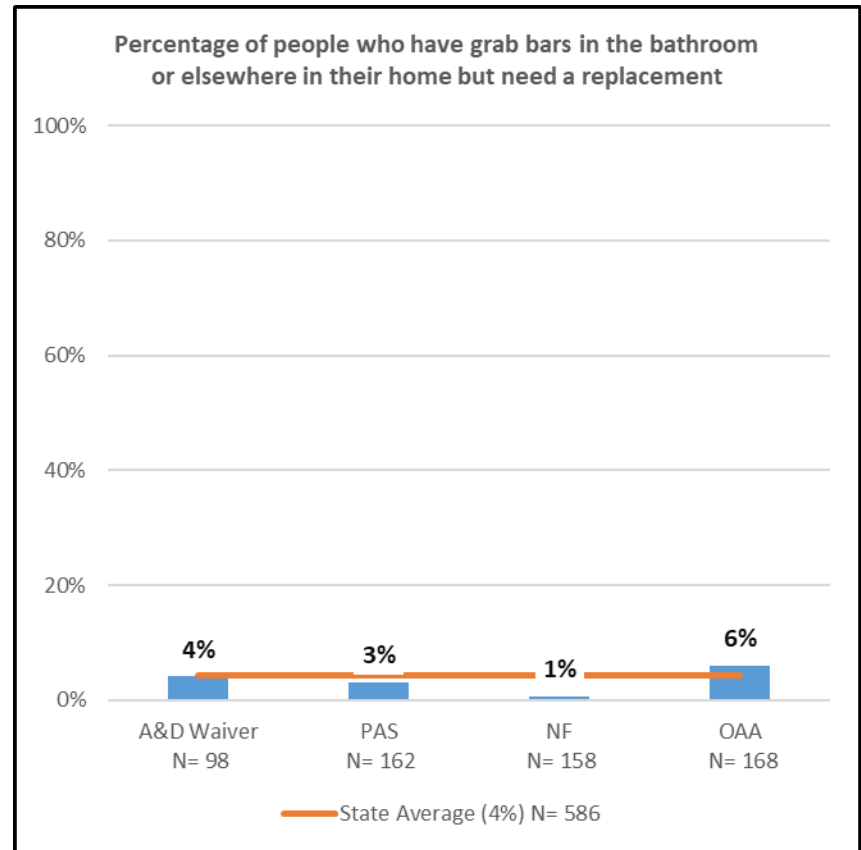

There are two survey items that correspond to the Access to Needed Equipment domain.

Un-collapsed data are shown in Appendix B.

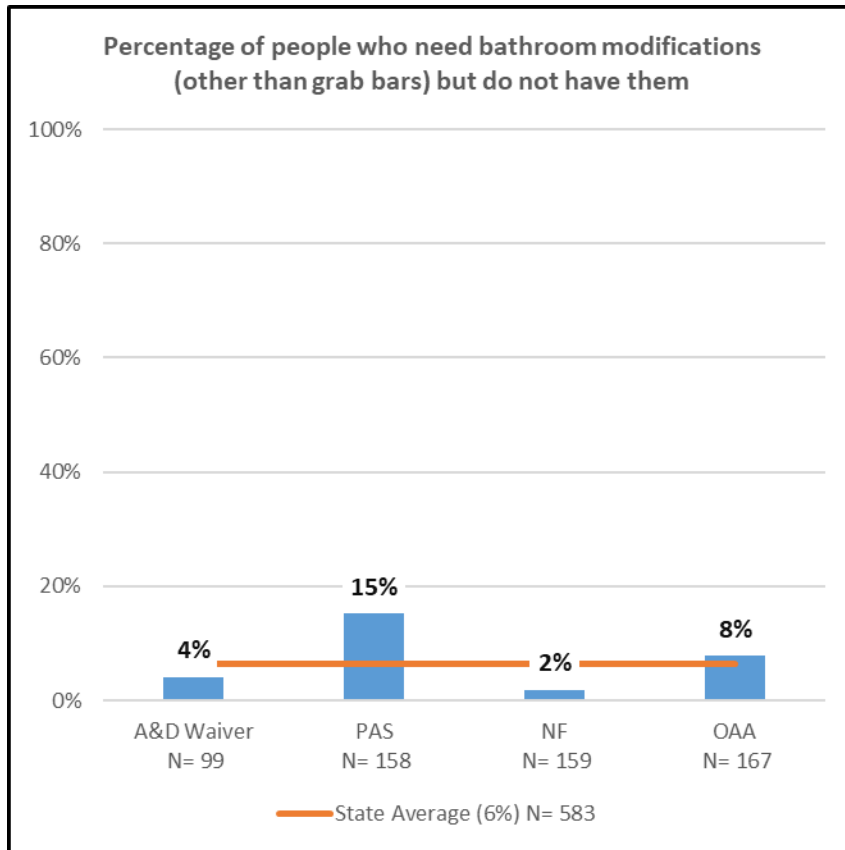

Graph 30. Percentage of people who need grab bars in the bathroom or elsewhere in their home but do not have them

Graph 31. Percentage of people who have grab bars in the bathroom or elsewhere in their home but need a replacement

Graph 32. Percentage of people who need bathroom modifications (other than grab bars) but do not have them

Graph 56. Percentage of people who need some other assistive device but do not have it

\* Very small number of responses

Graph 57. Percentage of people who have some other assistive device but need a replacement

\* Very small number of responses

## Safety

### People feel safe from abuse, neglect, and injury.

There are six Safety indicators measured by the NCI-AD Adult Consumer Survey:

1. Percentage of people with concerns about falling<sup>18</sup>
2. Percentage of people who feel safe around their paid support staff
3. Percentage of people who are worried for the security of their personal belongings
4. Percentage of people who are able to get to safety quickly in case of an emergency
5. Percentage of people whose money has been taken without their permission
6. Percentage of people who know whom to talk to if they are mistreated or neglected<sup>19</sup>

There are six survey items that correspond to the Safety domain.

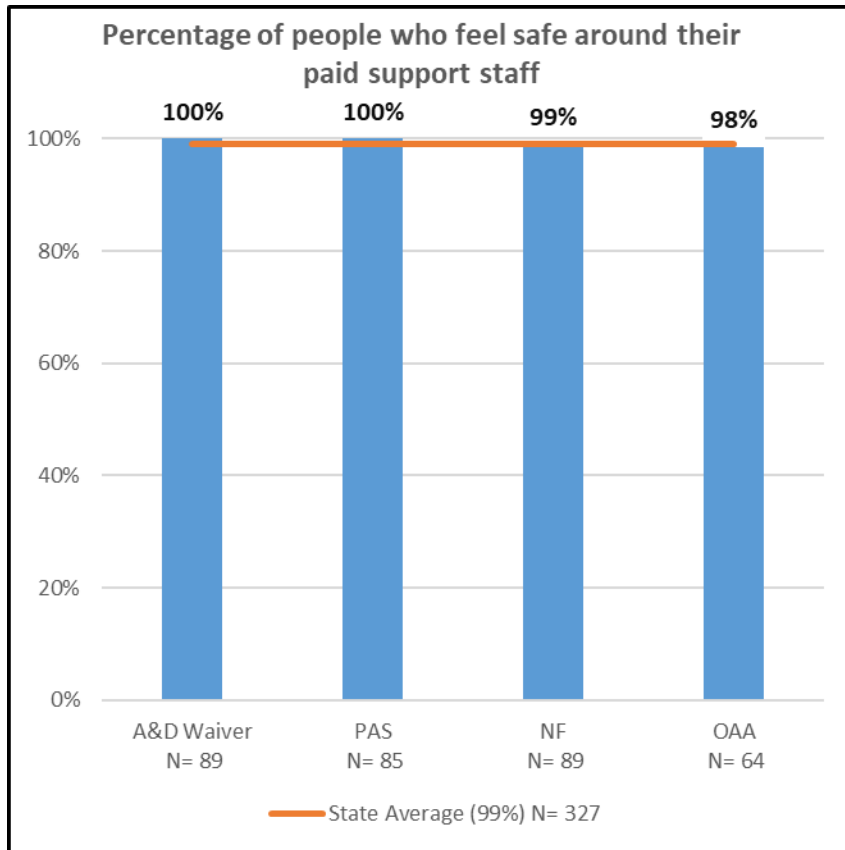

Un-collapsed data are shown in Appendix B.

---

<sup>18</sup> Indicator previously reported in the “Care Coordination” domain.

<sup>19</sup> New indicator in 2019-2020.

Graph 58. Percentage of people who feel safe around their paid support staff

Graph 59. Percentage of people who are ever worried for the security of their personal belongings

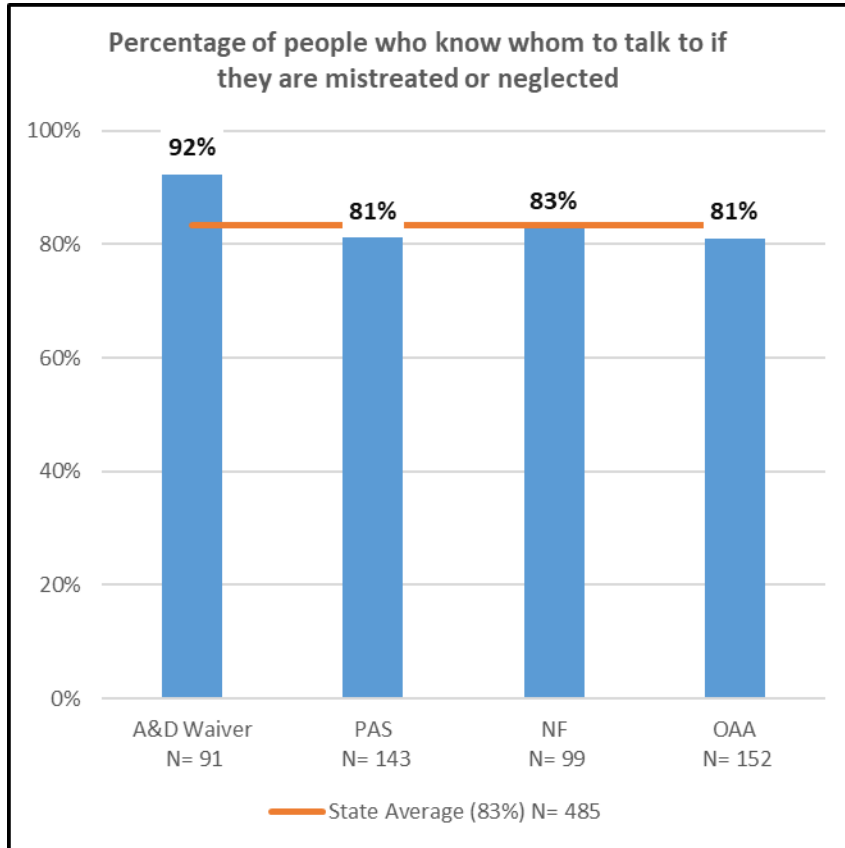

Graph 60. Percentage of people whose money was taken or used without their permission in the last 12 months

Graph 61. Percentage of people who are able to get to safety quickly in case of an emergency like a house fire

Graph 62. Percentage of people who know whom to talk to if they are mistreated or neglected<sup>20</sup>

<sup>20</sup> New item in 2019-2020.

Graph 63. Percentage of people with concerns about falling or being unstable<sup>21</sup>

<sup>21</sup> Item previously reported in the "Care Coordination" domain.

## Health Care

People secure needed health services.

There are four Health Care indicators measured by the NCI-AD Adult Consumer Survey:

1. Percentage of people who experience potentially preventable emergency room visits
2. Percentage of people who have needed health screenings and exams in a timely manner
3. Percentage of people who can get an appointment with their doctor when they need to
4. Percentage of people who have talked to someone about feeling sad or depressed

There are five survey items that correspond to the Health Care domain.

Un-collapsed data are shown in Appendix B.

Graph 64. Percentage of people who have gone to the emergency room for any reason in the past year

Graph 65. Percentage of people whose emergency room visit in the past year was due to falling or losing balance

Graph 66. Percentage of people whose emergency room visit in the past year was due to tooth or mouth pain

Graph 67. Percentage of people whose emergency room visit in the past year was due to being unable to see their primary care doctor when they needed to

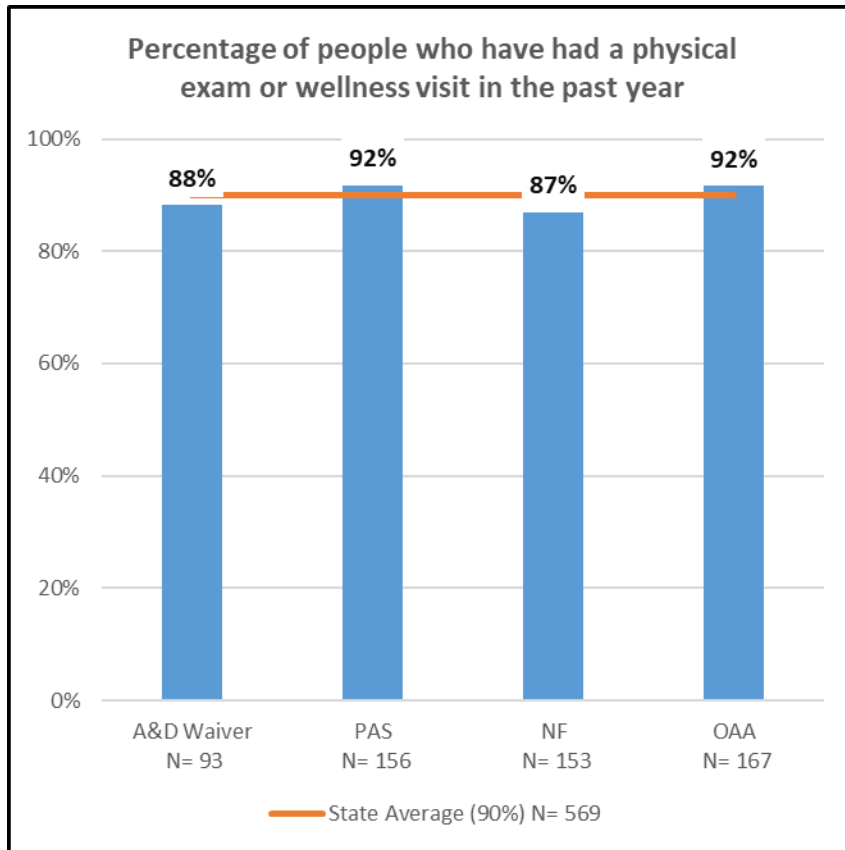

Graph 68. Percentage of people who can get an appointment to see their primary care doctor when they need to

Graph 69. Percentage of people feeling sad or depressed who have talked to someone about it in the past 12 months

Graph 70. Percentage of people who have had a physical exam or wellness visit in the past year

Graph 71. Percentage of people who have had a hearing exam in the past year

Graph 72. Percentage of people who have had a vision exam in the past year

Graph 73. Percentage of people who have had a flu shot in the past year

Graph 74. Percentage of people who have had a dental visit in the past year

## Wellness

People are supported to maintain wellness.

There are seven Wellness indicators measured by the NCI-AD Adult Consumer Survey:

1. Percentage of people whose health is better than 12 months ago
2. Percentage of people who have discussed forgetting things with a health care professional
3. Percentage of people with uncorrected poor hearing
4. Percentage of people with uncorrected poor vision
5. Percentage of people who often feel sad or depressed
6. Percentage of people who have access to healthy foods
7. Percentage of people who often feel lonely<sup>22</sup>

There are nine<sup>23</sup> survey items that correspond to the Wellness domain.

Un-collapsed data are shown in Appendix B.

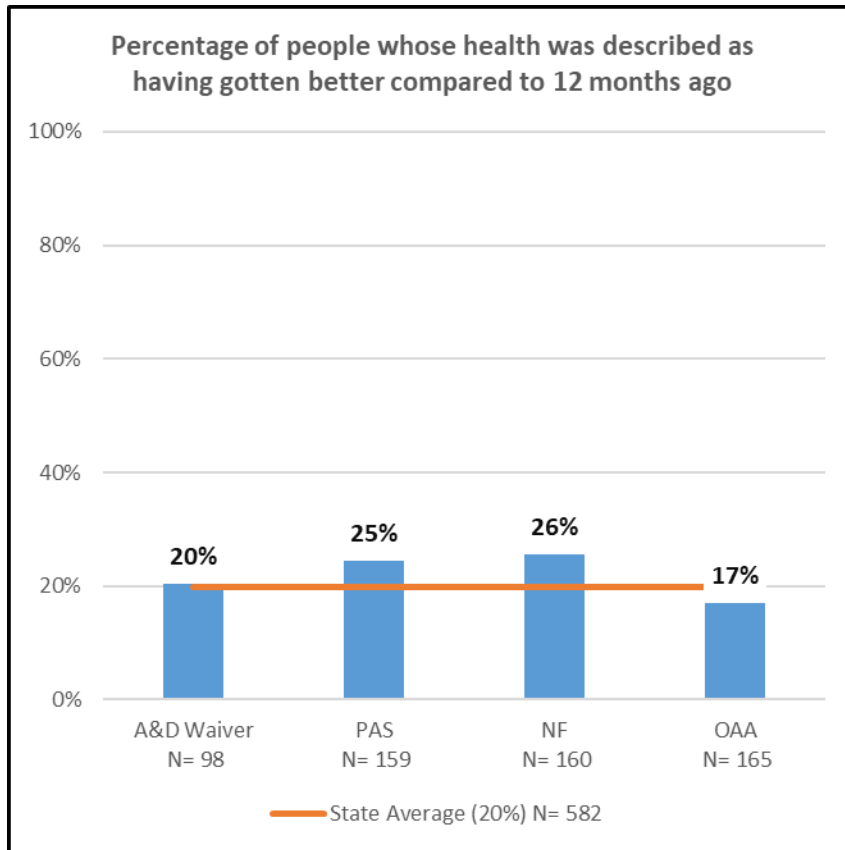

---

<sup>22</sup> New indicator in 2019-2020.

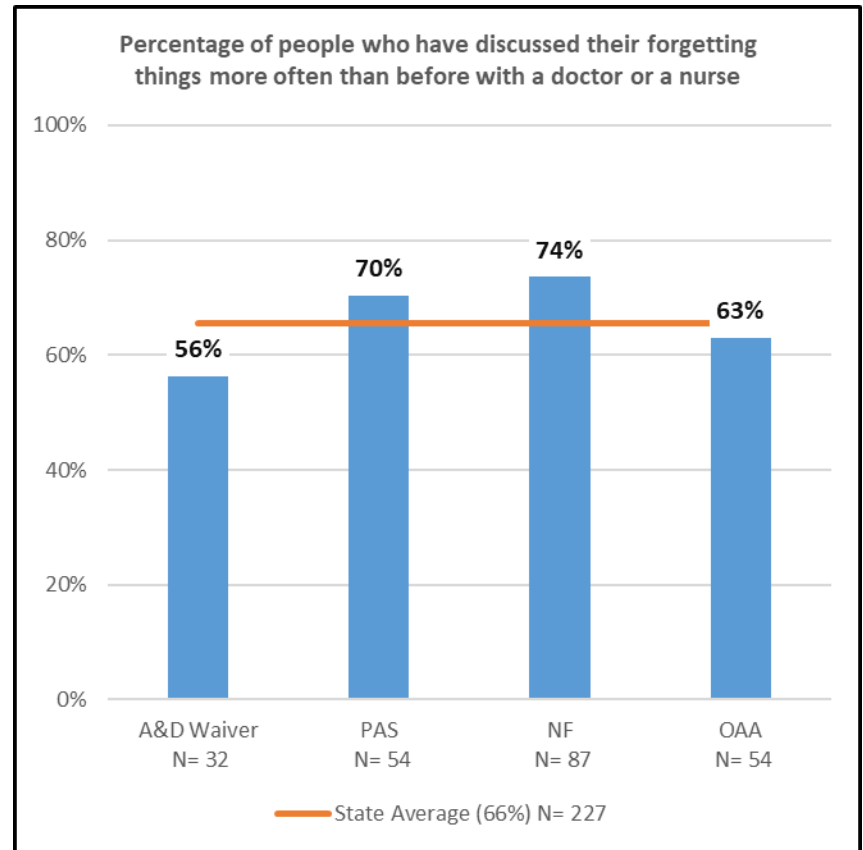

<sup>23</sup> Data for two items are presented in Appendix B only.

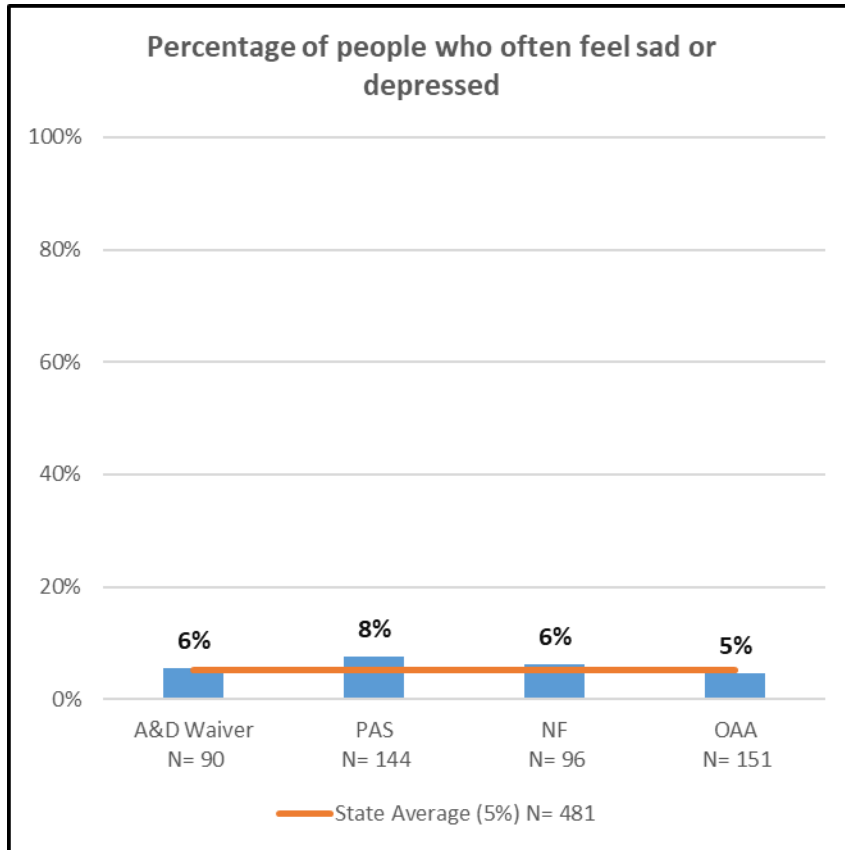

Graph 75. Percentage of people whose health was described as having gotten better compared to 12 months ago

Graph 76. Percentage of people who have discussed their forgetting things more often than before with a doctor or a nurse

Graph 77. Percentage of people who often feel sad or depressed

Graph 78. Percentage of people who often feel lonely<sup>24</sup>

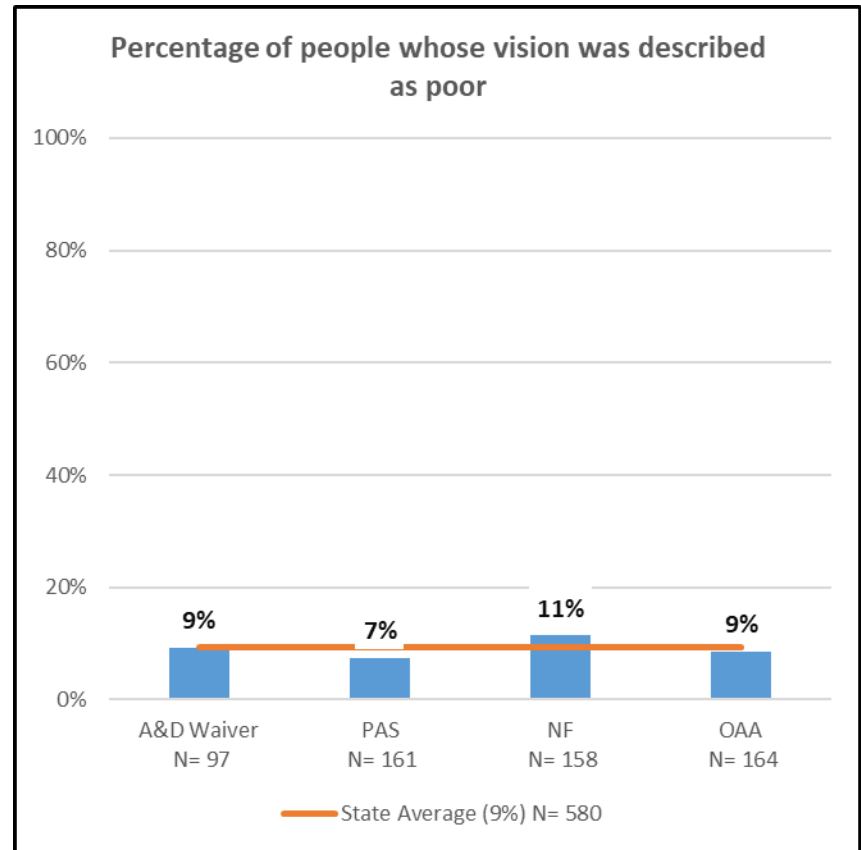

<sup>24</sup> New item in 2019-2020.

Graph 79. Percentage of people whose hearing was described as poor (with hearing aids, if wears any)

Graph 80. Percentage of people whose vision was described as poor (with glasses or contacts, if wears any)

Graph 81. Percentage of people who have access to healthy foods if they want them

## Medications

Medications are managed effectively and appropriately.

There are two Medication indicators measured by the NCI-AD Adult Consumer Survey:

1. Percentage of people who take medications to help them feel less sad or depressed
2. Percentage of people who know what their prescription medications are for

There are two survey items that correspond to the Medication domain.

Un-collapsed data are shown in Appendix B.

Graph 82. Percentage of people who take medications that help them feel less sad or depressed

Graph 83. Percentage of people who understand what they take their prescription medications for

## Rights and Respect

People receive the same respect, rights and protections as others in the community.

There are seven Rights and Respect indicators measured by the NCI-AD Adult Consumer Survey:

1. Percentage of people who have access to information about services in their preferred language<sup>25</sup>
2. Percentage of people whose paid support staff treat them with respect
3. Percentage of people in group settings whose permission is asked before others enter their room
4. Percentage of people in group settings who are able to lock the door to their room
5. Percentage of people in group settings who have enough privacy
6. Percentage of people in group settings whose visitors are able to come at any time
7. Percentage of people in group settings who always have access to food

There are seven survey items that correspond to the Rights and Respect domain.

Un-collapsed data are shown in Appendix B.

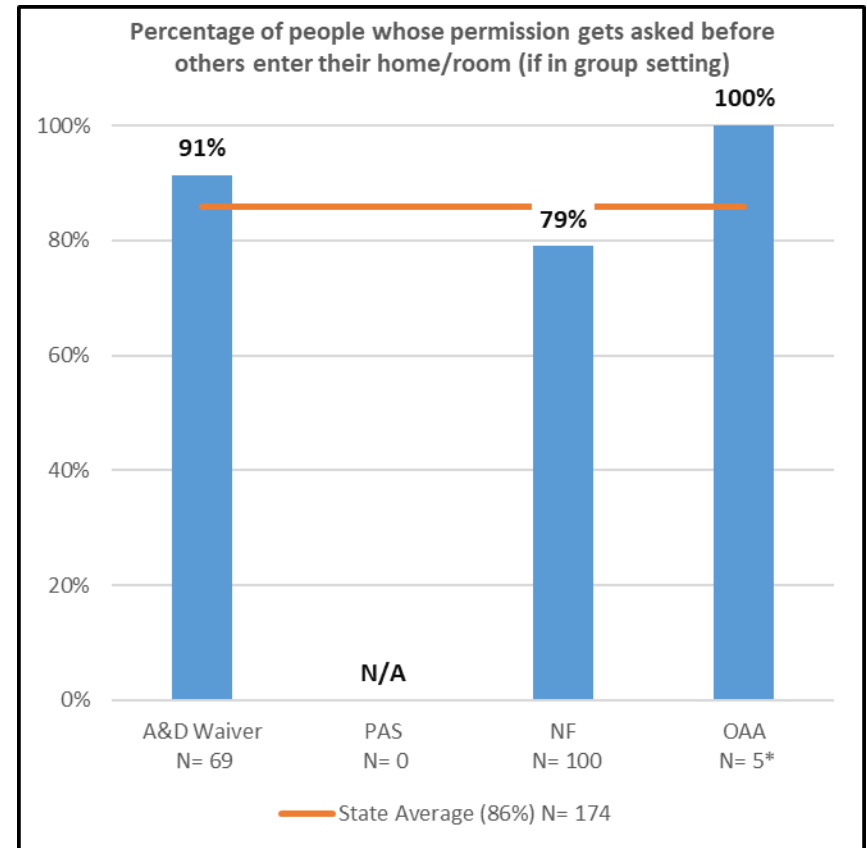

---

<sup>25</sup> Indicator previously reported in the “Service Coordination” domain.

Graph 84. Percentage of people whose paid support staff treat them with respect

Graph 85. Percentage of people whose permission is asked before others enter their home/room (if in group setting)<sup>26</sup>

\* Very small number of responses

<sup>26</sup> Group/adult family/foster/host home, assisted living/residential care facility, nursing facility/nursing home

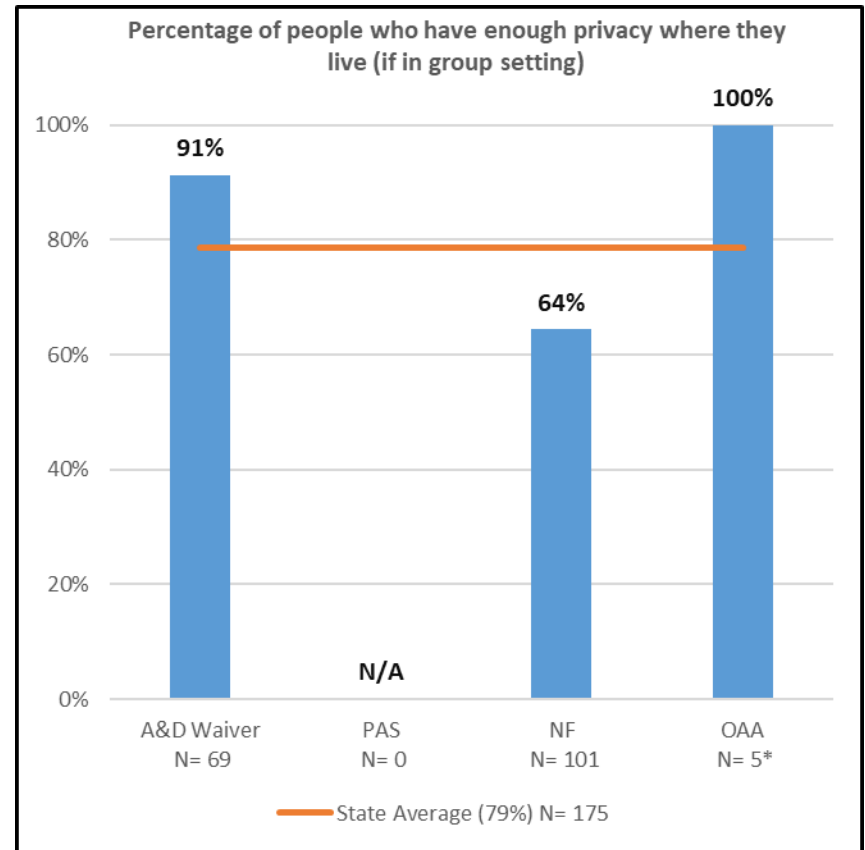

Graph 86. Percentage of people who are able to lock the doors to their room if they want to (if in group setting)<sup>27</sup>

\* Very small number of responses

Graph 87. Percentage of people who have enough privacy where they live (if in group setting)<sup>28</sup>

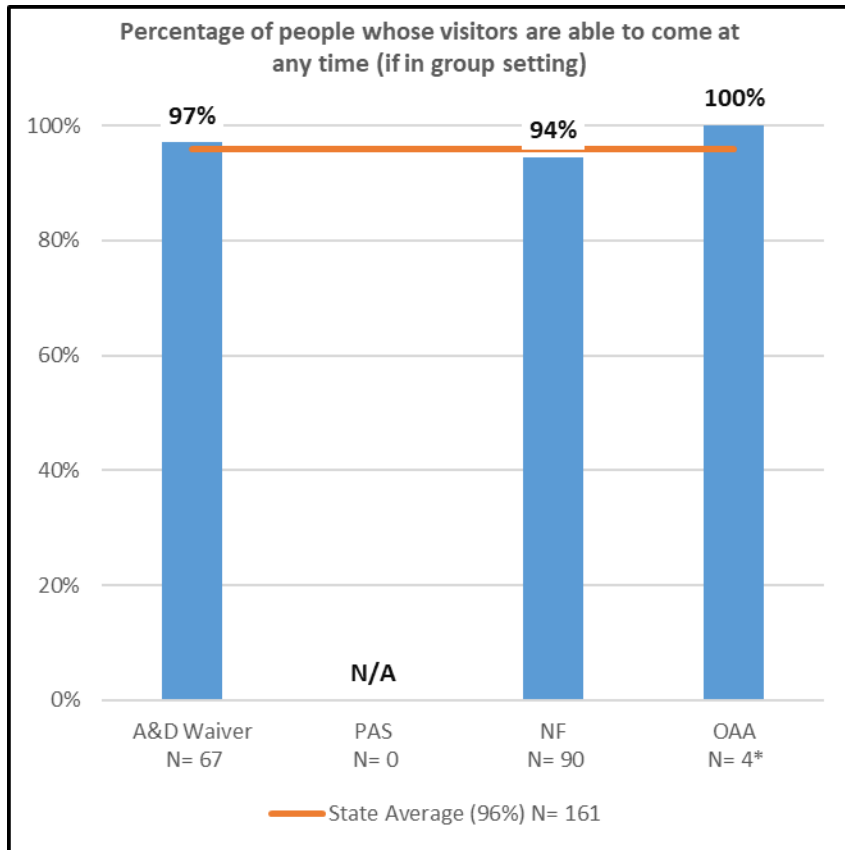

\* Very small number of responses

<sup>27</sup> Group/adult family/foster/host home, assisted living/residential care facility, nursing facility/nursing home

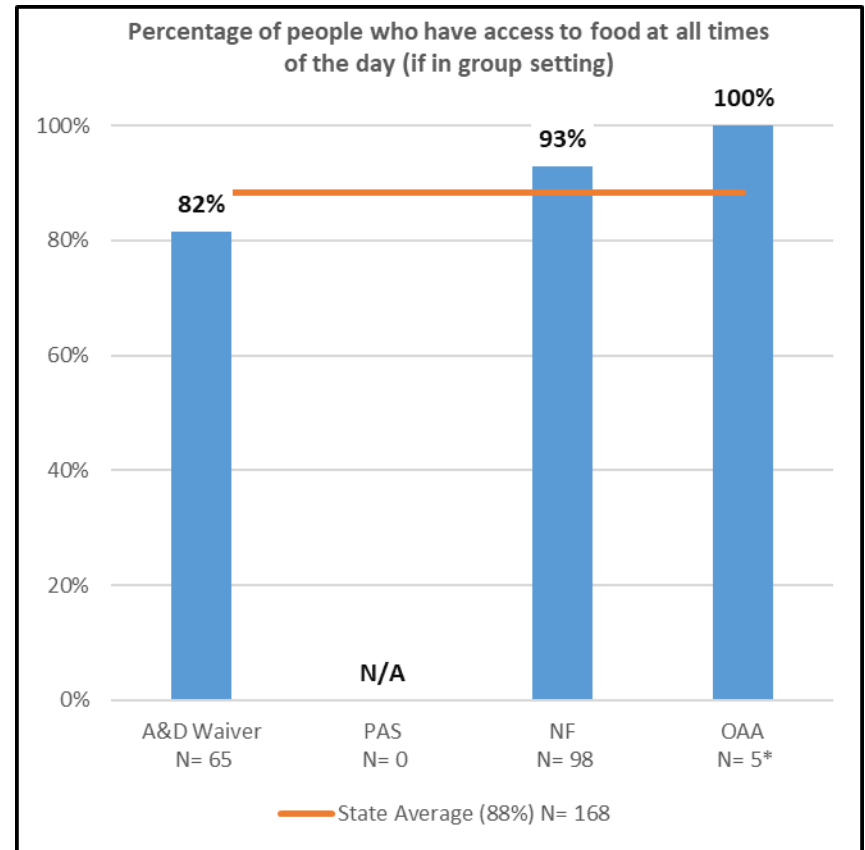

<sup>28</sup> Group/adult family/foster/host home, assisted living/residential care facility, nursing facility/nursing home

Graph 88. Percentage of people whose visitors are able to come at any time (if in group setting)<sup>29</sup>

\* Very small number of responses

Graph 89. Percentage of people who have access to food at all times of the day (if in group setting)<sup>30</sup>

\* Very small number of responses

<sup>29</sup> Group/adult family/foster/host home, assisted living/residential care facility, nursing facility/nursing home

<sup>30</sup> Group/adult family/foster/host home, assisted living/residential care facility, nursing facility/nursing home

Graph 90. Percentage of people who have access to information about services in their preferred language (if non-English)<sup>31</sup>

\* Very small number of responses

<sup>31</sup> Item previously reported in "Service Coordination" domain

## Self-Direction

People have authority and are supported to direct and manage their own services.

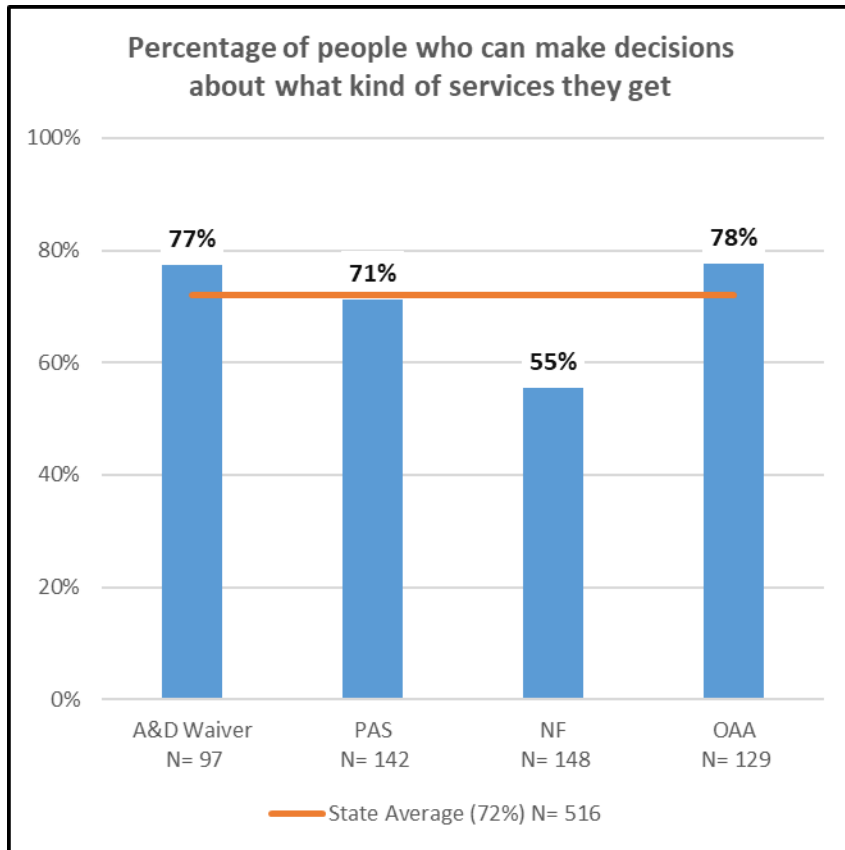

There are three Self-Direction indicators measured by the NCI-AD Adult Consumer Survey:

1. Percentage of people who can choose what services they receive
2. Percentage of people who can choose when they receive services
3. Percentage of people who can choose their paid support staff

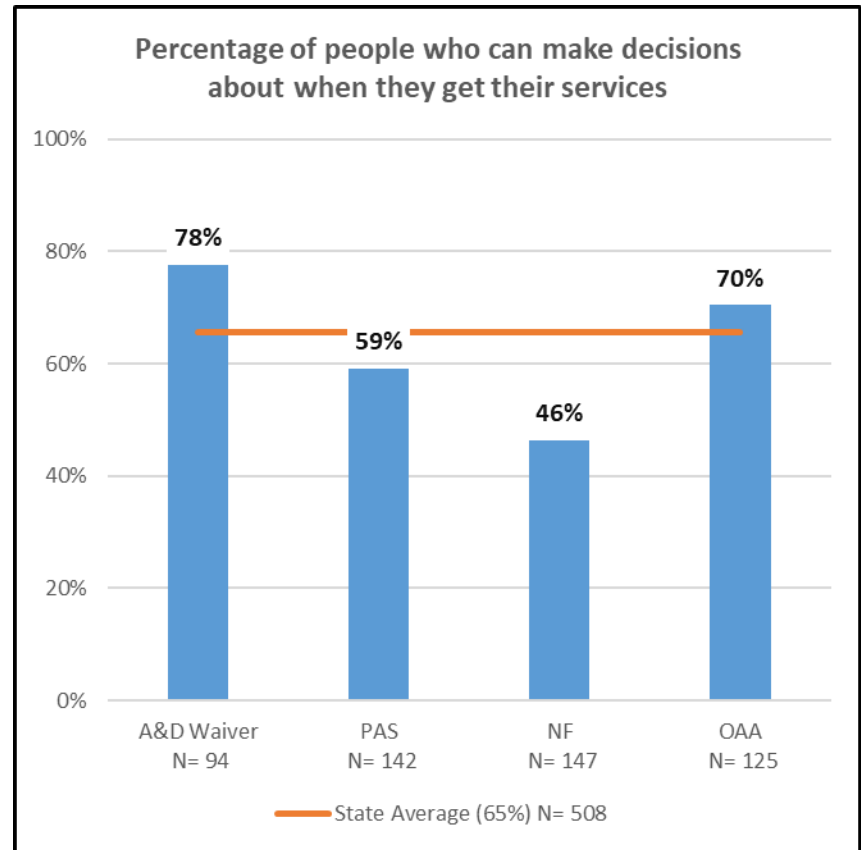

There are three survey items that correspond to the Self-Direction domain.

Un-collapsed data are shown in Appendix B.

Graph 91. Percentage of people who can make decisions about what kind of services they get

Graph 92. Percentage of people who can make decisions about when they get their services

Graph 93. Percentage of people who can make decisions about their paid support staff

## Work

People have support to find and maintain community integrated employment if they want it.

There are five Work indicators measured by the NCI-AD Adult Consumer Survey:

1. Percentage of people who have a paid job
2. Percentage of people who would like a job
3. Percentage of people wanting a job who receive job search assistance
4. Percentage of people who volunteer
5. Percentage of people who would like to volunteer

There are five survey items that correspond to the Work domain.

Un-collapsed data are shown in Appendix B.

Graph 94. Percentage of people who have a paying job

Graph 95. Percentage of people who would like a job (if not currently employed)

Graph 96. Percentage of people wanting a job who had someone talk to them about job options

\* Very small number of responses

Graph 97. Percentage of people who do volunteer work

Graph 98. Percentage of people who would like to do volunteer work (if not currently volunteering)

## Everyday Living

People have enough supports for everyday living.

There are two Everyday Living indicators measured by the NCI-AD Adult Consumer Survey:

1. Percentage of people who have adequate support for everyday activities
2. Percentage of people who have adequate support for self-care

There are four<sup>32</sup> survey items that correspond to the Everyday Living domain.

Un-collapsed data are shown in Appendix B.

---

<sup>32</sup> Data for two items are presented in Appendix B only.

Graph 99. Percentage of people needing at least some assistance with everyday activities who always get enough of that assistance when they need it

Graph 100. Percentage of people needing at least some assistance with self-care who always get enough of that assistance when they need it

## Affordability

People have enough available resources.

There is one Affordability indicator measured by the NCI-AD Adult Consumer Survey:

1. Percentage of people who have to cut back on food due to finances.

There is one survey item that corresponds to the Affordability domain.

Un-collapsed data are shown in Appendix B.

Graph 101. Percentage of people who ever have to skip a meal due to financial worries

## Appendix A: Rules for Recoding and Collapsing Responses

Table A1 below details collapsing rules for recoding survey items with three or more response options into binary variables used for analysis. The table also specifies which graphs in this report contain recoded items, as well as their associated NCI-AD domains.

Unless otherwise stated, “Don’t Know” and “Unclear/Refused” responses are excluded.

Table A1. Outcome Variables – Collapsing Rules

Domain	Item	Graph #	Collapsing Logic
Community Participation	Percentage of people who are as active in their community as they would like to be	1	Collapse “No” and “Sometimes”
Choice and Control	Percentage of people who get up and go to bed when they want to	4	Collapse “Some days, sometimes” and “No, never”
	Percentage of people who can eat their meals when they want to	5	Collapse “Some days, sometimes” and “No, never”
	Percentage of people who are able to furnish and decorate their room however they want to (if in group setting)	6	Collapse “In all ways” and “In most ways”
	Percentage of people who never feel in control of their lives	7	Collapse “Yes, almost always, always” and “In-between, sometimes”
Relationships	Percentage of people who are always able to see or talk to friends and family when they want to (if there are friends and family who do not live with person)	8	Collapse “Most of the time, usually, or some family and/or friends” and “No, or rarely”
Satisfaction	Percentage of people who like where they live	9	Collapse “In-between, most of the time” and “No”
	Percentage of people who want to live somewhere else	10	Collapse “Yes” and “Maybe”
	Percentage of people who like how they spend their time during the day	11	Collapse “Some days, sometimes” and “No, never”
	Percentage of people whose paid support staff change too often	12	Collapse “Yes” and “Some, or sometimes”
	Percentage of people whose paid support staff do things the way they want them done	13	Collapse “Some, or usually” and “No, never or rarely”
Service Coordination	Percentage of people who know whom to contact if they want to make changes to their services	16	Collapse “Not sure, maybe” and “No”
	Percentage of people who know whom to contact if they have a complaint about their services	17	Collapse “Not sure, maybe” and “No”

Domain	Item	Graph #	Collapsing Logic
	Percentage of people whose paid support staff show up and leave when they are supposed to	18	Collapse “Some, or usually” and “No, never or rarely”
	Percentage of people whose long-term services meet all their current needs and goals	20	Collapse “No, not at all” and “Some needs and goals”
	Percentage of people who can reach their case manager/care coordinator when they need to (if know they have case manager/care coordinator)	23	Collapse “Most of the time, usually” and “No, or only sometimes”
Care Coordination	Percentage of people who felt comfortable and supported enough to go home (or where they live) after being discharged from a hospital or rehabilitation facility in the past year	24	Collapse “No” and “In-between”
	Percentage of people who know how to manage their chronic condition(s)	26	Collapse “No” and “In-between, or some conditions”
Access to Community	Percentage of people who have transportation when they want to do things outside of their home (non-medical)	28	Collapse “No” and “Sometimes”
	Percentage of people who have transportation to get to medical appointments when they need to	29	Collapse “No” and “Sometimes”
Access to Needed Equipment	Percentage of people who need grab bars in the bathroom or elsewhere in their home but do not have them	30	Collapse “Has one, but needs replacement”, “Has one and doesn’t need replacement”, and “Doesn’t need”
	Percentage of people who have grab bars in the bathroom or elsewhere in their home but need a replacement	31	Collapse “Needs one”, “Has one and doesn’t need replacement”, and “Doesn’t need”
	Percentage of people who need bathroom modifications (other than grab bars) but do not have them	32	Collapse “Has one, but needs replacement”, “Has one and doesn’t need replacement”, and “Doesn’t need”
	Percentage of people who have bathroom modifications (other than grab bars) but need a replacement	33	Collapse “Needs one”, “Has one and doesn’t need replacement”, and “Doesn’t need”
	Percentage of people who need a specialized bed but do not have it	34	Collapse “Has one, but needs replacement”, “Has one and doesn’t need replacement”, and “Doesn’t need”
	Percentage of people who have a specialized bed but need a replacement	35	Collapse “Needs one”, “Has one and doesn’t need replacement”, and “Doesn’t need”
	Percentage of people who need a ramp or stair lift in or outside the home but do not have it	36	Collapse “Has one, but needs replacement”, “Has one and doesn’t need replacement”, and “Doesn’t need”

Domain	Item	Graph #	Collapsing Logic
	Percentage of people who have a ramp or stair lift in or outside the home but need a replacement	37	Collapse "Needs one", "Has one and doesn't need replacement", and "Doesn't need"
	Percentage of people who need some other home modification but do not have it	38	Collapse "Has one, but needs replacement", "Has one and doesn't need replacement", and "Doesn't need"
	Percentage of people who have some other home modification but need a replacement	39	Collapse "Needs one", "Has one and doesn't need replacement", and "Doesn't need"
	Percentage of people who need a walker but do not have it	40	Collapse "Has one, but needs replacement", "Has one and doesn't need replacement", and "Doesn't need"
	Percentage of people who have a walker but need a replacement	41	Collapse "Needs one", "Has one and doesn't need replacement", and "Doesn't need"
	Percentage of people who need a scooter but do not have it	42	Collapse "Has one, but needs replacement", "Has one and doesn't need replacement", and "Doesn't need"
	Percentage of people who have a scooter but need a replacement	43	Collapse "Needs one", "Has one and doesn't need replacement", and "Doesn't need"
	Percentage of people who need a wheelchair but do not have it	44	Collapse "Has one, but needs replacement", "Has one and doesn't need replacement", and "Doesn't need"
	Percentage of people who have a wheelchair but need a replacement	45	Collapse "Needs one", "Has one and doesn't need replacement", and "Doesn't need"
	Percentage of people who need hearing aids but do not have them	46	Collapse "Has one, but needs replacement", "Has one and doesn't need replacement", and "Doesn't need"
	Percentage of people who have hearing aids but need a replacement	47	Collapse "Needs one", "Has one and doesn't need replacement", and "Doesn't need"
	Percentage of people who need glasses but do not have them	48	Collapse "Has one, but needs replacement", "Has one and doesn't need replacement", and "Doesn't need"
	Percentage of people who have glasses but need a replacement	49	Collapse "Needs one", "Has one and doesn't need replacement", and "Doesn't need"
	Percentage of people who need a shower chair but do not have it	50	Collapse "Has one, but needs replacement", "Has one and doesn't need replacement", and "Doesn't need"
	Percentage of people who have a shower chair but need a replacement	51	Collapse "Needs one", "Has one and doesn't need replacement", and "Doesn't need"

Domain	Item	Graph #	Collapsing Logic
	Percentage of people who need a personal emergency response system but do not have it	52	Collapse “Has one, but needs replacement”, “Has one and doesn’t need replacement”, and “Doesn’t need”
	Percentage of people who have a personal emergency response system but need a replacement	53	Collapse “Needs one”, “Has one and doesn’t need replacement”, and “Doesn’t need”
	Percentage of people who need an oxygen machine but do not have it	54	Collapse “Has one, but needs replacement”, “Has one and doesn’t need replacement”, and “Doesn’t need”
	Percentage of people who have an oxygen machine but need a replacement	55	Collapse “Needs one”, “Has one and doesn’t need replacement”, and “Doesn’t need”
	Percentage of people who need some other assistive device but do not have it	56	Collapse “Has one, but needs replacement”, “Has one and doesn’t need replacement”, and “Doesn’t need”
	Percentage of people who have some other assistive device but need a replacement	57	Collapse “Needs one”, “Has one and doesn’t need replacement”, and “Doesn’t need”
Safety	Percentage of people who know whom to talk to if they are mistreated or neglected	62	Collapse “Maybe, not sure” and “No”
	Percentage of people with concerns about falling or being unstable	63	Collapse “Yes, often” and “Sometimes”
Health Care	Percentage of people who can get an appointment to see their primary care doctor when they need to	68	Collapse “Usually” and “No, rarely”
Wellness	Percentage of people whose health was described as having gotten better compared to 12 months ago	75	Collapse “Much better” and “Somewhat better”; Collapse “Much worse”, “Somewhat worse” and “About the same”
	Percentage of people who often feel sad or depressed	77	Collapse “Never, or almost never”, “Not often”, and “Sometimes”
	Percentage of people who often feel lonely	78	Collapse “Never, or almost never”, “Not often”, and “Sometimes”
	Percentage of people whose hearing was described as poor (with hearing aids, if wears any)	79	Collapse “Good” and “Fair”
	Percentage of people whose vision was described as poor (with glasses or contacts, if wears any)	80	Collapse “Good” and “Fair”
	Percentage of people who have access to healthy foods if they want them	81	Collapse “No, never” and “Sometimes”

Domain	Item	Graph #	Collapsing Logic
Medications	Percentage of people who understand what they take their prescription medications for	83	Collapse “No” and “In-between, or some medications”
Rights and Respect	Percentage of people whose paid support staff treat them with respect	84	Collapse “No, never or rarely” and “Some, or usually”
	Percentage of people whose permission is asked before others enter their home/room (if in group setting)	85	Collapse “Sometimes, rarely or never” and “Usually, but not always”
	Percentage of people who have enough privacy where they live (if in group setting)	87	Collapse “Sometimes, rarely or never” and “Usually, but not always”
	Percentage of people who have access to information about services in their preferred language (if non-English)	90	Collapse “Some information” and “No”
Self-Direction	Percentage of people who can make decisions about what kind of services they get	91	Collapse “No” and “Sometimes, or some services”
	Percentage of people who can make decisions about when they get their services	92	Collapse “No” and “Sometimes, or some services”
	Percentage of people who can make decisions about their paid support staff	93	Collapse “No” and “Sometimes, or some”
Work	Percentage of people who would like a job (if not currently employed)	95	Collapse “Yes” and “Maybe, not sure”
	Percentage of people who would like to do volunteer work (if not currently volunteering)	98	Collapse “Yes” and “Maybe, not sure”
Affordability	Percentage of people who ever have to skip a meal due to financial worries	101	Collapse “Yes, often” and “Sometimes”
